# Chairman's Statement

This summary report gives a general overview of the research carried out in DIAS in 2014. More detailed information on the research activities of each of the Schools can be found in their School Research Reports which are available on the DIAS website.

I would like first of all to take this opportunity to pay tribute to three of our Senior Professors who retired at the end of the year for the major contribution they have made to DIAS and to the advancement of their respective subject areas. Professor Fergus Kelly, an acknowledged expert on early Irish law, served in the School of Celtic Studies since 1968. His studies of Irish law texts from the seventh and eighth century gives us a fascinating insight into different aspects of early Irish life. His new publication gives a very interesting account on the resolution of legal disputes within marriages. The School had a one-day law conference in his honour which attracted participants from the world of law and academia. Professor Pádraig Breatnach, who also worked in the School of Celtic Studies from 2006, is an authority on the palaeography and scribal history of medieval and early modern Irish. His recent publication on the work of The Four Masters' documents the scribal styles and independent manuscript legacy of the two most outstanding compilers of the Annals. Professor Alan Jones, who retired in Feb. 2015, served as the Head of the Geophysics section since 2003. In his time here Professor Jones was successful in attracting a significant level of external funding and he significantly enhanced the research base and profile of the Section. He also developed many partnerships and linkages with other institutions. Fortunately, DIAS was able to fill this post with an excellent Geophysicist, Professor Chris Bean and we look forward to his work in the coming years. The filling of the posts in the School of Celtic Studies will be a priority for the coming year.

For a research institute which is at the forefront of its specialist areas of research, quality and excellence in research is always a primary consideration. Every five years, a review of the research of the constituent Schools is undertaken by a panel of international experts who present their findings to Council. A review was undertaken in 2014 on the work of the Schools and the findings of the respective Panels illustrate the high quality research that was carried out by the Schools against a backdrop of contracting resources. The recommendations of the Panel will be very helpful to DIAS in framing its new strategy.

DIAS is working to diversify its funding base. Given the low level of support for basic research at national level, researchers are being encouraged and supported in applying for alternative sources of funding. The School of Cosmic Physics was successful in getting ERC funding last year and the aim is now to build on this. A new Foundation, called the "Friends of

DIAS" has been formally established with the aim of raising additional funds for particular projects and initiatives. The narrow focus of the Government's funding policy is a particular concern for our scientists. DIAS and the research community in general needs to be able to attract world class researchers. Together with our University colleagues, we have continued to highlight this issue and hope that the new Strategy for Science & Innovation will include funding support for basic research.

Each of the Schools held various research workshops and conferences on topics under investigation. During 2014 the School of Celtic Studies had its triennial Summer School which attracted a large attendance of scholars from all around the world. There was also a number of outreach events aimed at the general public, including a lecture by the world renowned physicist, Professor Freeman Dyson [Institute of Advanced Study, Princeton] who enlightened his audience with his theories on Artificial Intelligence. In February of 2014 we were delighted to host a symposium organised in cooperation with the Japanese Embassy on lessons learned from the great East Japan earthquake of 2011 and the devastating tsunami it generated. The occasion was marked with a visit to the Institute by the Japanese Ambassador to Ireland. In April of 2014 the Austrian Ambassador to Ireland also visited the Institute. His visit reflects the strong ties that exist between DIAS and Austria.

Finally, I would like to congratulate the Director of the School of Theoretical Physics, Professor Werner Nahm who has added another prestigious award to his name. The Royal Irish Academy awarded him the 2014 Gold Medal for Physical and Mathematical Sciences. The award recognises his contribution to a wide range of fields but especially mathematical physics.

*Chairman of Council, Dr. Vincent Cunnane.*

*Cathaoirleach na Comhairle, An Dr. Vincent Cunnane.*

# Ráiteas an Chathaoirligh

Tugann an tuarascáil achomair seo léargas ginearálta ar an taighde a rinneadh DIAS sa bhliain 2014. Is féidir eolas níos mionsonraithe ar ghníomhaíochtaí taighde na Scoileanna uile a fháil ina dTuarascálacha Taighde Scoile atá ar fáil ar shuíomh gréasán DIAS.

I dtús báire ba mhaith liom an deis seo a thapú le hómós a thabhairt do thriúr d'ár nOllúna Sinsearacha a chuaigh ar scor ag deireadh na bliana as an gcion fíorshuntasach a rinne siad do DIAS agus don chur chun cinn ina réimsí ábhair faoi seach. D'fhreastal an tOllamh Fergus Kelly, saineolaí aitheanta i ndlí luath na hÉireann, i Scoil an Léinn Cheiltigh ó 1968. Tugann an staidéir ar théacsanna dlí na hÉireann ón seachtú haois agus ón ochtú haois léargas fíorshuimiúil ar ghnéithe éagsúla de shaol luath na hÉireann. Tugann a fhoilseachán nua cur síos an-shuimiúil ar réiteach ar dhíospóidí dlí laistigh de phóstaí. Bhí comhdháil lae ag an Scoil in ómós dó a mheall ranpháirtithe ó dhomhan an dlí agus ó dhomhan an léinn. Saineolaí is ea an tOllamh Pádraig Breathnach, a d'oibrigh freisin o Scoil an Léinn Cheiltigh ó 2006, ar pailéagrafaíocht agus stair scríbhinné na meán-Ghaeilge agus na Nua-Ghaeilge Moiche. Tugann a fhoilseachán le déanaí ar shaothar na gCeithre Máistrí cur síos ar na stíleanna scribhinné agus oidhreacht lámhscríbhinné neamhspleáach ag an mbeirt tiomsaitheoirí is túisce de na hAnnála. D'fhreastal an tOllamh Alan Jones, a chuaigh ar scor i bhFeabhra na bliana 2015, mar Cheann ar rannóg na Geoifísice ó 2003. Le linn a chuid ama anseo d'éirigh leis an Ollamh Jones leibhéal suntasach de mhaoiniú seachtrach a fháil agus chuir sé go mór le bonn taighde agus le próifíl na Rannóige. D'fhorbair sé neart páirtíochtaí agus naisc le hinstíúidí eile. Ar an dea-uair, bhí DIAS ábalta an post seo a lónadh le Geoifísiceoir den scóth, an tOllamh Chris Bean agus táimid ag tnúth lena shaothar sna blianta seo romhainn. Beidh lónadh na bpost i Scoil an Léinn Cheiltigh ina thosaíocht don bhliain seo atá ag teacht.

D'instiúid taighde atá chun tosaigh ina réimsí speisialtóireachta taighde, cuirtear cáiliúch agus feabhas sa taighde san áireamh mar thosaíocht i gcónaí. Gach cúig bliana, déantar athbhreithniú ar thaighde na Scoileanna comhpháirteacha ag painéal de shaineolaithe neamhspleácha a chuireann a dtorthaí i láthair don Chomhairle. Rinneadh athbhreithniú sa bhliain 2014 ar shaothar na Scoileanna agus léiríonn tátail na bPainéil faoi seach an taighde ardchaighdeáin a rinne na Scoileanna i gcúinsí ina raibh laghdú ar acmhainní. Cuideoidh moltaí an Phainéil go mór le DIAS chun a straitéis nua a chruthú.

Tá DIAS ag obair chun an bonn maoinithe a leathnú. I bhfianaise an leibhéal íseal do thaighde bunúsach ag an leibhéal náisiúnta, tá spreagadh agus tacáíocht á thabhairt do thaighdeoirí iarratais a dhéanamh ar fhoinsí malartacha maoinithe. D'éirigh le Scoil na Fisice Cosmaí maoiniú ERC a fháil anuraidh agus is í an aidhmanois tógáil air sin. Bunaíodh Fondúireacht nua, ar a nglaoitear "Cairde DIAS" go

foirmiúil d'fhonn maoiniú breise a fháil do thionscadail agus tionscnaimh ar leith. Ábhar imní ar leith d'ár n-eolaithe is ea an fócas cúng atá ag polasaí maoinithe an Rialtais. Ní mór do DIAS agus don phobal taighde i gcoitinne a bheith ábalta taighdeoirí den scóth a mhealladh. In éineacht lenár gcomhghleacaithe Ollscoile, leanamar d'aird a tharraingt ar an gceist seo agus tá súil againn go n-áireoidh an Straitéis nua um Eolafocht & Nuálaíocht tacáíocht maoinithe don taighde bunúsach.

Thionól gach ceann de na Scoileanna ceardlanna agus comhdhálacha taighde éagsúla ar thopaití ar a bhfuil taighde á dhéanamh. Le linn na bliana 2014 d'eagraigh Scoil an Léinn Cheiltigh a Scoil Samhraídh thríbhliantúil a mheall lucht freastal móir de scoláirí ó thimpeall an domhain. Bhí roinnt ócáidí for-rochtana ann freisin diríthe ar an bpobal i gcoitinne, lena n-áirítear léacht ag an bhfisiceoir cáiliúil am tOllamh Freeman Dyson (Institute for Advanced Studies, Princeton) a d'oil an lucht éisteachta lena theoríci ar an Intleacht Shaorga. I mí Feabhra na bliana 2014 bhí áthas orainn siompósiam ea eagrú i gcomhar le hAmbasáid na Seapáine maidir le ceachtanna a foghlaimíodh ó chrith talún ollmhór na Seapáine Thoir in 2011 agus an súnámaí uafásach a ghn sé. Comóradh an ócáid le cuairt ar an Institiúid ag Ambasadóir na Seapáine ar Éirinn. In Aibreán na bliana 2014 thug Ambasadóir na hOstaire ar Éirinn cuairt ar an Institiúid freisin. Léiríonn a chairt na naisc láidre atá ann idir DIAS agus an Ostair.

Mar chríoch, ba mhaith liom comhghairdeas a ghabháil le Stiúrthóir Scoil na Fisice Teoiriciúla, an tOllamh Werner Nahm, a bhfuil gradam clúiteach eile bainte aige. Bhronn Acadamh Ríoga na hÉireann Bonn Órga 2014 d'Eolaíochtaí Fisice agus Matamaítice air. Tugann an gradam aitheantas as a shaothar i raon leathan réimsí ach go háirithe san fhísic mhatamaíticiúil.

Ambassador Dr. Thomas Nader with Cecil Keaveney  
(Registrar of DIAS)

An tAmbasadóir an Dr. Thomas Nader le Cecil Keaveney  
(Cláraitheoir DIAS)

# School of Celtic Studies

## RESEARCH

Liam Breathnach continued work on his edition of the Old Irish law tract *Córas Bésgnai*, as well as on a Grammar of Middle Irish. He also worked on preparing a number of papers for publication.

Pádraig Breathnach continued work on some eighteenth-century Munster poems for the series 'Togha na hÉigse 1700–1800'; continued editorial work for the *Apocrypha Hiberniae* project; continued to prepare the catalogue of Irish manuscripts in Brussels; worked on Festschrift contributions [1] 'Comhar na mban' [editions of 18th century verse] [2] 'A poem by Eochaidh Ó hEódhusa' [edition].

Fergus Kelly completed and sent to press his edition of an Old Irish text on legal disputes within marriage [D. A. Binchy, *Corpus Iuris Hibernici i* 144.5–150.16] for the Early Irish Law Series, and continued with an edition of an Early Modern Irish Legal Treatise attributed to the Connacht jurist Giolla na Naomh Mac Aodhagáin, who died in 1309 [D. A. Binchy, *Corpus Iuris Hibernici ii* 691.1–699.4].

Barry Lewis continued work on an edition of *Bonedd y Saint* [genealogical text on Welsh saints].

Aoibheann Nic Dhomhnaill continued research on the composition and contents of the collection of thirty Irish medical manuscripts, dating from the fifteenth and sixteenth centuries, that are housed in the Library of Trinity College, Dublin. Data compiled in previous years was revised and corrected during 2014.

Brian Ó Curnáin continued work on Modern Irish dialect studies, including the preparation of a monograph on East Galway Irish, and the transcription and editing of recorded materials for the GLÓR project.

Gordon Ó Riain continued work on a new edition of IGT V. This included work on a draft edition of portion of the tract with translation and commentary. He also worked on an edition with translation, notes and study of a previously unnoticed fragment of a tract on grammar and prosody inserted into UCD-OFM A 4, and a catalogue entry for part of the Yellow Book of Lecan.

Deborah Hayden continued work on an edition of a medieval Irish tract on grammatical and rhetorical doctrine associated with the text known as *Auraicept na nÉces*, as well as on an edition and translation of a medieval Irish medical text from

NLS MS 72.1.2. She also carried out work on re-cataloguing sections of the Yellow Book of Lecan as part of a collaborative project in the School of Celtic Studies.

Mona Jakob continued work on a project on rhyming pairs in Old and Middle Irish poetry and conceptual patterns that might be found therein. She worked on preparing an article 'Without rhyme or reason? Unusual rhyming pairs in Old and Middle Irish poetry' to be submitted for publication in March 2015.

Síle Ní Mhurchú continued research on the manuscript sources for the dánta grádha, and work on an edition of *Agallamh Oisín agus Phádraig*.

Nicole Volmering completed her PhD dissertation. She conducted research on the relation between the Second Vision of Adomnán, the 'scare' of AD 1096 and 'apocalypticism' in Ireland, and on the manuscripts containing the *Féilire Óengusso* and Stokes' editing policies, on the connection between *Visio Sancti Pauli*, Merovingian penitentials and the Irish concept of family ties in the ninth degree, as well as connections between visions and *immrama*.

Fangzhe Qiu worked on the final stage of his PhD thesis on early Irish law.

Mícheál Hoyne carried out research on his post-doctoral project editing the poems of the fifteenth-century poet Seifín Mór.

*Scoil Samhraids 2015*

*Summer School 2015*

# Scoil an Léinn Cheiltigh

## TAIGHDE

Lean Liam Breathnach lena chuid oibre ar a eagrán den téacs dlí Sean-Ghaeilge Córus Bésgnai, mar aon le Gramadach na Meán-Ghaeilge, agus réitigh sé roinnt páipéar le haghaidh foilsithe.

Lean Pádraig Breathnach ag obair ar roinnt dánta Muimhneacha ón 18ú haois don tsraith 'Togha na hÉigse 1700-1800', ar obair eagarthóireachta don tionscnamh *Apocrypha Hiberniae*, ar chatalóg na lámhscríbhinní Gaeilge sa Bhrúiséal, agus ar dhá alt i gcomhair féilscríbhinní [1] 'Comhar na mban' [eagrán de dhánta ón 18ú haois] [2] 'A poem by Eochaíd Ó hEódhusa' [eagrán].

Chríochnaigh Fergus Kelly a eagrán de théacs Sean-Ghaeilge ar dhíospóidí dlí laistigh de phósadh [D. A. Binchy, *Corpus Iuris Hibernici* i 144.5–150.16] agus cuireadh go dtí na clódóirí é le foilsíú san Early Irish Law Series, agus lean sé le heagrán de thráchtas dlí sa Nua-Ghaeilge Mhoch a bhaineann leis an dlí-eolaí Chonnachtach Giolla na Naomh Mac Aodhagáin, a fuair bás i 1309 [D. A. Binchy, *Corpus Iuris Hibernici* ii 691.1–699.4].

Lean Barry Lewis ag obair ar eagrán de *Bonedd y Saint* [téacs ginealach ar naoimh na Breataine Bige].

Lean Aoibheann Nic Dhonnchadha le taighde ar chomhdhéanamh agus ar ábhair an bhailiúcháin de thríocha lámhscríbhinn leighis Éireannacha, ón chúigiú agus séú haois déag, atá i Leabharlann Choláiste na Tríonaíde, Baile Átha Cliath. Rinneadh athchóiriú agus ceartú ar ábhar a cuireadh le chéile le blianta anuas i gcaitheamh 2014.

Lean Brian Ó Curnáin ag obair ar staidéir ar chanúintí na Nua-Ghaeilge, lena n-áirítear monagraf ar Ghaeilge Oirtheor na Gaillimhe, agus tras-scríobh agus eagarthóireacht ar ábhair thaifeadta do thionscadal GLÓR.

Lean Gordon Ó Riain le hobair ar eagrán nua de *Irish Grammatical Tracts V*, lena n-áirítear dréacht de eagrán de chuid den téacs le haistriúchán agus tráchtaireseacht. Chomh maith leis sin rinne sé obair ar eagrán le haistriúchán, nótáí agus staidéar ar mhír de thráchtas ar ghrámadach agus prosóid i lámhscríbhinn A 4 UCD-OFM nár tugadh faoi deara cheana, agus ar iontráil chatalóige i gcomhair cuid de Leabhar Buí Leacáin.

D'oibrigh Deborah Hayden ar eagrán de thráchtas meánaoiseach Gaeilge ar theagasc gramadáí agus reitrice a rangaítear leis an téacs *Auraicept na nÉces*, chomh maith le heagrán agus aistriúchán de théacs meánaoiseach leighis as an LS Leabharlann Náisiúnta na hAlban 72.1.2. Freisin rinne sí obair ar athchatalógú de chodanna de Leabhar Buí Leacáin, mar chuid de thionscnamh comhoibritheach sa Scoil.

Lean Mona Jakob ag obair ar a tionscadal ar phéirí ríme sa tSean-Ghaeilge agus sa Mheán-Ghaeilge agus ar na pátrún choinchéapúla a d'fhéadfaí a fháil iontu. D'ullmhaigh sí alt 'Without rhyme or reason? Unusual rhyming pairs in Old and Middle Irish poetry' le cur faoi bhráid irise i Mártá 2015.

Lean Síle Ní Mhurchú ag obair ar thaighde ar fhoinsí lámhscríbhinn do dhánta grá na Gaeilge Clasaicí (*dánta grádhá*), agus ar eagrán de *Agallamh Oisín agus Phádraig*.

Chríochnaigh Nicole Volmering a tráchtas Phd. Rinne sí taighde ar Dara Fís Adhomhnáin, imeachtaí in Éirinn sa bhliain 1096 agus an t-apacailipteachas, chomh maith le taighde ar lámhscríbhinn Féilire Óengusso, ar *Visio Sancti Pauli* agus ar físeanna agus *immrama*.

Rinne Fangzhe Qiu obair ar an gcuid deireanach dá thráchtas PhD ar an dlí Éireannach luath.

Rinne Mícheál Hoyne taighde ar a thionscnamh iardhochtúireachta, eadhón eagrán de dhánta an fhile Seifín Mór, a bhain leis an 15ú haois

## MEAMRAM PÁIPÉAR RÍOMHAIRE (ISOS)

Lean tionscadal Mheamram Páipéar Ríomhaire le hobair ar dhigitíu lámhscríbhinní agus ar uasghrádú an bhunachair sonraí ollmhór agus cartlann an ábhair dhigitithe atá ag ISOS. Rinneadh athnuachan i mbliana ar an gcomhoibriú le hAcadamh Ríoga na hÉireann le digitíu ar sé LSS ón 16ú haois agus iad a chur ar fáil ar an suíomh lí: LS 23 F 21, LS 23 N 8, LS C i 3, LS C ii 3, LS C iii 2 agus LS E i 3. Faoin am seo tá 75 LSS as bailliúchán an Acadaimh ar fáil ar an suíomh. Chomh maith leis sin cuireadh trí LSS as bailliúchán Choláiste na Tríonaíde i n-airde ar an suíomh, eadhón, LS 1301 'Annála na gCeithre Máistrí', LS 1318 'Leabhar Buí Leacáin', LS 1319/2/7 [tráchtasí gramadaí] agus LS 1340 'Duanaire Thigh na Cille'. Tosaiodh ar dhigitíu ar 16 LSS i Leabharlann Óstáin Rí, a chuirfear i n-airde ar an suíomh i gcaitheamh na bliana 2015. Rinneadh digitíu ar seacht LSS i Leabharlann Marsh, Z 2.2.1, Z 3.1.5, Z 3.1.7, Z 3.4.19, Z 3.5.3, Z 4.2.5, Z 4.5.6, agus cuireadh i n-airde ar an suíomh iad. Fuarthas 3.5 milliún iarratas don suíomh sa bhliain 2014.

## OGHAM IN 3D

Sa bhliain 2014 bhronn an tSeirbhís Séadchomharthaí Náisiúnta [NMS], an Roinn Ealaíon, Oidhreachta agus Gaeltachta tuilleadh tacaíochta airgeadais don tionscadal atá á chur i gcrích i gcomhar leis an gClár Fionnachtana. Rinneadh scanadh agus digitíu ar 26 cloch oghaim, agus as na 73 cloch oghaim atá faoi chúram an Stáit tá scanadh agus digitíu déanta ar 55 acu. Tá sé i gceist ar a laighead na 18 cloch oghaim ar liosta na Séadchomharthaí Náisiúnta i gCiarrai Theas a scanadh i gcaitheamh na bliana 2015.

# School of Celtic Studies [continued]

## IRISH SCRIPT ON SCREEN (ISOS)

The Irish Script on Screen project continued work on digitisation of manuscripts and upgrading the huge database and archive of digitised material held by ISOS. This year brought a renewed partnership with the Royal Irish Academy, with six further 16th century manuscripts being digitized and going live on the Irish Script on Screen website: MS 23 F 21, MS 23 N 8, MS C i 3, MS C ii 3, MS C iii 2 and MS E i 3, totalling some 75 manuscripts on Irish Script on Screen from the Royal Irish Academy's collection to date.

Trinity College MS 1301 'The Annals of the Four Masters', MS 1318 'The Yellow Book of Lecan', MS 1319/2/7 Grammatical and MS 1340 'The Tinnakill duanaire' went live during the year.

Digitization began with sixteen manuscripts from King's Inns which will be going live sometime in 2015. Seven manuscripts from Marsh's Library, MS Z 2.2.1, MS Z 3.1.5, MS Z 3.1.7, MS Z 3.4.19, MS Z 3.5.3, MS Z 4.2.5, MS Z 4.5.6. were digitized and went live on the ISOS site.

The last year saw some 3.5 million requests on the ISOS website.

## OGHAM IN 3D

The National Monuments Service, Dept. of Arts, Heritage and the Gaeltacht, provided a further subvention for 2014 in support of the project being undertaken in cooperation with the Discovery Programme. In all 26 ogham stones were scanned in 2014. Of the 73 ogham stones in State Care, 55 have now been scanned and digitised to date. It is hoped to cover at least the remaining 18 ogham stones on the National Monuments list in Kerry South in 2015. The Ogham in 3D website is continuing to develop as a research tool. Over 80 ogham records have been digitised and it is expected to reach 100 by mid 2015, roughly a quarter of the total.

Nora White was successful in her application for Heritage Council funding to commission an archaeological assessment and report for the medieval church and multiple ogham stone site of Knockboy, Co. Waterford. The report was submitted to the Heritage Council in November.

A number of presentations were given by Nora White in connection with the project, namely, [13 February] to transition year students, [27 August] Heritage Week lecture in Dungarvan: 'Ogham in 3D and the Waterford ogham stones', [19 September] Culture Night at DIAS, [19 September]

Cultures of Stone conference, UCD: 'Ogham stones – uniquely Irish monuments precariously standing between pre-history and history', [31 October] lecture to Waterford Archaeological and Historical Society: 'Written in stone: the story of Ogham in Waterford'. In addition she submitted an article on the Ogham in 3D project, co-written with Fionnbarr Moore, Gary Devlin and Rob Shaw, to *Archaeology Ireland*, and 'Ogham in 3D: Digitizing a unique aspect of Ireland's cultural heritage' to *Breac: A Digital Journal of Irish Studies*.

## BIBLIOGRAPHY

Alexandre Guilarte continued to work on the compilation of the *Bibliography of Irish Linguistics and Literature (BILL)*, describing and analysing relevant contributions appearing in academic journals, monographs, and collective works. He also worked on the design of the bibliography website focusing on the design of a new comprehensive search interface. He gave a presentation on the BILL project within the forum 'Prospects and possibilities for Celtic Studies online', as part of the 36th University of California Celtic Studies Conference, UCLA, 13–16 March 2014. He contributed entries to appear in vols 47/2 and 48/1 of the International Medieval Bibliography, edited by the Institute for Medieval Studies, University of Leeds, published by Brepols.

## MANUSCRIPT STUDIES

Professor Liam Breathnach continued direction of a diplomatic edition of the early 15th-century manuscript *Leabhar Breac*, and began a project involving staff and scholars of the School to produce a new catalogue on the contents of the Yellow Book of Lecan.

## PUBLICATIONS

The year 2014 saw the publication of *Authorities and Adaptations: The Reworking and Transmission of Sources in Medieval Ireland*, edited by Elizabeth Boyle and Deborah Hayden, and of *The Art of Bardic Poetry. A new Edition of Irish Grammatical Tracts I*, by Eoin Mac Cárthaigh.

## LIBRARY

Current and retrospective cataloguing continued. Acquisitions continued in subject areas relevant to the research needs of the School. Regular updates on recent accessions and current periodicals (both print and online) were issued. Research and bibliographical queries from members of the School were dealt with. Inter-library loans were ordered, consulted and returned to the lending institution.

# Scoil an Línn Cheiltigh [ar leanúint]

Táthar ag leanúint ar an suíomh líne a forbairt mar uirlis taighde. Tá digitú déanta ar bhreis agus 80 taifead oghaim, agus táthar ag súil leis go mbeidh 100 ceann déanta faoi láir 2015, thart ar an gceathrú cuid den iomlán.

D'éisigh le Nora White maoiniú a fháil ón Chomhairle Oidhreachta chun measúnú agus tuarascáil seandálaíochta a dhéanamh ar an ionad le heaglais mheánaoiseach agus clocha oghaim, An Cnoc Buí, Co. Phort Láirge. Cuireadh an tuarascáil faoi bhráid an Chomhairle Oidhreachta i mí na Samhna.

Thug Nora White roinnt cur i láthair maidir leis an tionscadal, eadhón, [13 Feabhra] do dhaltaí idirbhliana, [27 Lúnasa] i gcomhair Seachtain na hOidhreachta i nDún Garbháin: 'Ogham in 3D and the Waterford ogham stones', [19 Meán Fómhair] i gcomhair an Oíche Chultúir ag an Institiúid Ard-Léinn, [19 Meán Fómhair] comhdháil 'Cultures of Stone', COBÁC: 'Ogham stones – uniquely Irish monuments precariously standing between pre-history and history', [31 Deireach Fómhair] léacht do Chumann Seandálaíochta agus Staire Port Láirge: 'Written in stone: the story of Ogham in Waterford'. Chomh maith leis sin sholáthair sí alt ar an tionscadal oghaim a scríobh sí i bpáirt le Fionnbarr Moore, Gary Devlin agus Rob Shaw, i gcomhair *Archaeology Ireland*, agus alt ar 'Ogham in 3D: Digitizing a unique aspect of Ireland's cultural heritage' i gcomhair *Breac: A Digital Journal of Irish Studies*.

## BÍBLEAGRAFAÍOCHT

Lean Alexandre Guijarro lena chuid oibre ar *Bibliography of Irish Linguistics and Literature (BILL)* a chur i dtoll a chéile, ag díriú ar anailís agus innéacsú ar theidil thréimhisiúla agus ag an am céanna ag cur líon mó ríomháclacha nua isteach do leabhair agus monagraif ar staidéir theangeolaíocha na hÉireann. Chomh maith leis sin rinne sé obair ar leagan amach an tsuímh líne, ag díriú ar na huirlisí cuardaigh a fheabhsú.

Thug sé caint ar an tionscnamh laistigh den fhóram 'Prospects and possibilities for Celtic Studies online', mar chuid den 36th University of California Celtic Studies Conference, UCLA, 13–16 Márt 2014. Sholáthair sé iontrálacha do imleabhair 47/2 agus 48/1 den *International Medieval Bibliography*, in eagair ag an Institute for Medieval Studies, University of Leeds agus foilsithe ag Brepols.

## LÉANN LÁMHSCRÍBHINNÍ

Lean an tOllamh Liam Breathnach ag stiúradh eagrán dioplómaíúil den lámhscríbhinn ó thíos na 15ú haoise déag. An Leabhar Breac, agus chuir sé túis le tionscnamh, ina bhfuil baill foirne agus scoláirí páirteach, chun catalóg nua a sholáthar do Leabhar Buí Leacáin.

Elizabeth Boyle and Deborah Hayden editors of *Authorities and Adaptations: The Reworking and Transmission of Textual sources in Medieval Ireland* at the launch on 26th September.

Elizabeth Boyle agus Deborah Hayden eagarthóirí *Authorities and Adaptations* ag an seoladh ar an 26ú Meán Fómhair.

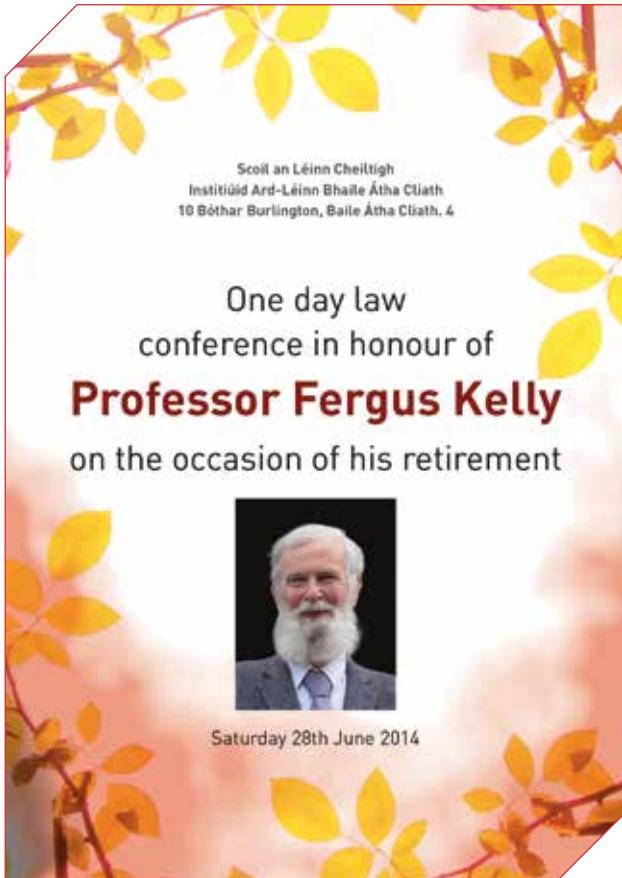

## FOILSEACHÁIN

Foilsíodh i mbliana *Authorities and Adaptations: The Reworking and Transmission of Sources in Medieval Ireland*, in eagair ag Elizabeth Boyle agus Deborah Hayden, agus *The Art of Bardic Poetry. A new Edition of Irish Grammatical Tracts I*, le Eoin Mac Cáरthaigh.

## LEABHARLANN

Leanadh le catalógú reatha agus siarghabhálach ar an leabharlann agus cuireadh taifid ar fáil don Chatalóg ar líne don Phobal. Leanadh le sealbhú i gcomhair réimsí ábhair a bhí ábhartha do riachtanais thaighde na Scoile. Eisíodh nuashonruithe rialta ar shealbhú a rinneadh le déanaí agus ar thréimhseacháin reatha agus déileáladh le ceisteanna taighde agus leabharliosta ó bhaill na Scoile agus ó chuaireoí.

## School of Celtic Studies [continued]

Comhdháil lae in onóir do Fergus Kelly.

The Library Committee met in April and September. The Library Committee advises on library policies, promotion of the library and on development and implementation of strategic changes. Committee members are Liam Breathnach, Aoibheann Nic Dhonnchadha, Alexandre Guilarte and the Librarian [Margaret Irons/George Rogers].

### CULTURE NIGHT

The School of Celtic Studies hosted an event as part of Culture Night 2014 on Friday September 19. Dr Nora White presented a demonstration of the Ogham in 3D website, and Dr Aoibheann Nic Dhonnchadha gave a demonstration of the Irish Script on Screen project.

Also in the Lecture Room on the night was a rare books display as well as a display of books published by the Institute. After the speakers had concluded, guests were given the opportunity to interact with both the ISOS and Ogham software as well as to speak personally with the lecturers. The School welcomed 38 guests to the event.

### TIONÓL 2014

This year's Tionól again attracted a very wide audience, with an international panel of speakers. Attendance was high, with audiences reaching ninety people. The following papers were delivered [in order of presentation] on Friday the 14th: Peter McQuillan, "Politeness" and Eighteenth Century Literature in Irish; Torsten Dörflinger, Language Use and Attitudes towards Irish among Gaeltacht School Children in Co. Donegal: Evidence from a survey; Mícheál Hoyne, A Survey of *Brúilingeachd* Verse; Matthias Egeler, Icelandic Horses and the Grey of Macha; Mikael Males, Foundation Myths and their Rhetorical Consequences in the *Auraicept* and the Icelandic Third Grammatical Treatise; Marie-Luise Theuerkauf, Something borrowed...? *Tochmarc Emire*, the Book of Leinster, and *Dindshenchas Érenn*; Marina Snæsareva, Consain chaola agus a n-úsáid ag cainteoír Gaeilge mar an dara teanga; Caoimhín Breathnach, Brian Ó Bóraimhe, 'Cogadh Gall ré Gaedhealaibh' and Foras Feasa ar Éirinn.

The following were delivered on Saturday the 15th: Éamon Ó Ciosáin, Writing the Breton Language: 'Institutions', Normalization and the Problem of a Standard; James McCloskey, Covert Modality in Irish Nonfinite Clauses with 'le'; Michael Clarke, International Influences on *Togail Troí* in the Later Middle Ages; Elizabeth Boyle, The Boyhood Deeds of David; Barry Lewis, Approaching the genealogies of the Welsh saints; Tom O'Donnell, St Findchú of Brigown, Children and a Response to Monastic Reform; Anders Ahlqvist, Messe ocsus Pangur Bán; Grace Neville, Flotsam and Jetsam: the Papers of Joseph Vendryes.

The Statutory Public Lecture held in conjunction with the Tionól, was delivered in UCD by Professor Liam Breathnach under the title 'The Church in the Laws of Early Mediaeval Ireland' on Friday the 14th of November. This was a well-attended lecture, and a recording is now available on the School's website.

### ONE DAY LAW CONFERENCE IN HONOUR OF PROFESSOR FERGUS KELLY

To mark the retirement of Professor Kelly and his major contributions to the study of early Irish law the Director, Professor Liam Breathnach, arranged a special conference at the Institute on Saturday the 28th of June. Each session lasted 45 minutes, and the following papers were delivered:

Thomas Charles-Edwards (University of Oxford): '*Bretha Comaithchesa and Early Irish Farming*'.

# Scoil an Línn Cheiltigh [ar leanúint]

Tháinig Coiste na Leabharlainne le chéile in Aibreán agus Meán Fómhair. Tugann an coiste comhairle ar pholasaí na leabharlainne, cur chun cinn na leabharlainne, agus forbairt agus cur i gcrích athraithe straitéisearcha. Is iad baill an choiste Liam Breathnach, Aoibheann Nic Dhonnchadha, Alexandre Guilarte agus an Leabharlannaí (Margaret Irons/ George Rogers).

## OÍCHE CHULTÚIR

D'eagraigh foireann na leabharlainne rannpháirtíocht na Scoile san 'Oíche Chultúir' [Dé hAoine, 19 Meán Fómhair 2014].

Thug an Dr Nora White cur i láthair suíomh líne don tionscadal 'Ogham in 3D', agus thug an Dr Aoibheann Nic Dhonnchadha íleáriú ar an tionscadal Meamram/Páipéar/Ríomhaire.

Chomh maith leis sin bhí taispeántas de leabhair annamha agus foileacháin na hInstitiúide sa Seomra Léachta. Nuair a bhí deireadh leis na cainteanna, tugadh deis do na haíonna imoibriú a dhéanamh leis an mbogearra don dá thionscadal, agus labhairt go pearsanta leis na léachtóirí. Chuir an Scoil fáilte roimh 38 aoi ar an oíche.

## TIONÓL 2014

Tharraing Tionól na bliana seo lucht éisteachta an-leathan arís i mbliana, le painéal idirnáisiúnta cainteoírí. Rinneadh freastal an-ard, suas le nócha duine sa lucht éisteachta. Tugadh na páipéir seo leanas [san ord inar cuireadh i láthair iad] ar an Aoine an 14ú: Peter McQuillan, "Politeness" and Eighteenth Century Literature in Irish; Torsten Dörflinger, Language Use and Attitudes towards Irish among Gaeltacht School Children in Co. Donegal: Evidence from a survey; Mícheál Hoyne, A Survey of Brúilingeachd Verse; Matthias Egeler, Icelandic Horses and the Grey of Macha; Mikael Males, Foundation Myths and their Rhetorical Consequences in the Auraicept and the Icelandic Third Grammatical Treatise; Marie-Luise Theuerkauf, Something borrowed...? Tochmarc Emire, the Book of Leinster, and Dindshenchas Érenn; Marina Snesareva, Consain chaola agus a n-úsáid ag cainteoírí Gaeilge mar an dara teanga; Caoimhín Breathnach, Brian Bóraimhe, 'Cogadh Gall ré Gaedhealaibh' and Foras Feasa ar Éirinn.

Tugadh na cainteanna seo leanas ar an Satharn an 15ú: Éamon Ó Ciosáin, Writing the Breton Language: 'Institutions', Normalization and the Problem of a Standard; James McCloskey, Covert Modality in Irish Nonfinite Clauses with 'le'; Michael Clarke, International Influences on *Togail Troí* in the Later Middle Ages; Elizabeth Boyle, The Boyhood Deeds of David; Barry Lewis, Approaching the genealogies of the Welsh saints; Tom O'Donnell, St Findchú of Brigown, Children and a

Response to Monastic Reform; Anders Ahlgqvist, Messe ocus Pangur Bán; Grace Neville, Flotsam and Jetsam: the Papers of Joseph Vendryes.

Thug an tOllamh Liam Breathnach an Léacht Poiblí Reachtúil a reáchtáladh i gcomhar leis an Tionól i gColáiste na hOllscoile, Baile Átha Cliath ar a Aoine an 14ú Samhain, faoin teideal 'The Church in the Laws of Early Mediaeval Ireland'. Bhí freastal an-mhaith ar an léacht seo, agus tá taifead den léacht seo ar fáil anois ar shuíomh gréasáin na Scoile.

## COMHDHÁIL LAE IN ONÓIR DON OLLAMH FERGUS KELLY

Chun scor an Ollaimh Kelly agus an sár-obair a rinne sé ar léann sean-dlithe na hÉireann a chomóradh, d'eagraigh an Stiúrthóir an tOllamh Liam Breathnach comhdháil speisialta san Institiúid ar an Satharn an 28ú Meitheamh. Mhair gach seisiún 45 nóiméad, agus tugadh na léachtaí seo leanas:

Thomas Charles-Edwards (Ollscoil Oxford): 'Bretha Comaithchesa and Early Irish Farming'.

Fangzhe Qiu (Coláiste na hOllscoile, Corcaigh): 'The traditionalisation of early Irish law'.

Neil McLeod (Ollscoil Murdoch, An Astráil): 'Removal on Sick-Maintenance: when did it cease?'.

Paul Russell (Ollscoil Cambridge): 'Welsh and Latin in medieval Welsh law'.

Morfydd Owen (Canolfan Uwchefrydiau Cymreig a Cheltaidd, Aberystwyth): 'Medieval Welsh cows, calves, bulls and oxen'.

Liam Breathnach (Institiúid Ard-Léinn Bhaile Átha Cliath): 'The law of the church in Bretha Nemed Toísech'.

Huw Pryce (Ollscoil Bangor): 'Nineteenth-century receptions of medieval Welsh law'.

Jacqueline Bemmer (Ollscoil Oxford): 'Nuances of immunity and permitted violence: interpreting quotations with glosses and commentary from the *cairde-text*'.

## GRAMADACH AGUS PROSÓID NA GAEILGE: ONE DAY CONFERENCE ON THE MEDIEVAL AND EARLY MODERN IRISH GRAMMATICAL AND METRICAL TRADITION

Bá é seo an téama a bhí le comhdháil lae ar éirigh go hiontach leis ar an 26ú Meán Fómhair, a rinne an Dr Gordon Ó Riain a reachtáil.

# School of Celtic Studies [continued]

Fangzhe Qiu [University College Cork]: 'The traditionalisation of early Irish law'.

Neil McLeod [Murdoch University, Australia]: 'Removal on Sick-Maintenance: when did it cease?'.

Paul Russell [University of Cambridge]: 'Welsh and Latin in medieval Welsh law'.

Morfydd Owen [Centre for Advanced Welsh and Celtic Studies, Aberystwyth]: 'Medieval Welsh cows, calves, bulls and oxen'.

Liam Breathnach [Dublin Institute for Advanced Studies]: 'The law of the church in *Bretha Nemed Táisech*'.

Huw Pryce [University of Bangor]: 'Nineteenth-century receptions of medieval Welsh law'.

Jacqueline Bemmer [University of Oxford]: 'Nuances of immunity and permitted violence: interpreting quotations with glosses and commentary from the *caerde*-text'.

## GRAMADACH AGUS PROSÓID NA GAEILGE: ONE DAY CONFERENCE ON THE MEDIEVAL AND EARLY MODERN IRISH GRAMMATICAL AND METRICAL TRADITION

This was the theme of a very successful conference organised by Dr Gordon Ó Riain and held at the Institute on 26 September.

The following papers were delivered [in order of presentation]:

Liam Breathnach, 'The *Trefocal* tract'; Deborah Hayden, 'On grammatical questions in an unpublished fragment of *Auraicept na nÉces*'; Roisin McLaughlin, 'Unusual gnáthaisti in Mittelirische Verslehren III'; Pádraig Ó Macháin, 'Grammar, prosody and the written text'; Gordon Ó Riain, 'A fragment of an early modern grammatical and metrical tract'; Eoin Mac Cáirtheigh, 'Comhthéacsanna IGT I'; Damian McManus, 'Fault-finding in IGT'; Ailbhe Ó Corráin, 'Rudimenta Grammaticae Hibernicae by Giolla Bríghde [alias Bonaventura] Ó hÉodhusa'; Caoimhín Breathnach, 'The manuscript sources of *Rudimenta Grammaticae Hibernicae*'; Pádraig A. Breathnach, 'Ornamentation in *rannaigheacht*'.

## SUMMER SCHOOL

The Summer School this year was again a great success with almost 70 persons in attendance from all over the world. It took place from 14–26 July and the following courses were offered:

9.30 – 11.00 **1A. Modern Irish:** Dr Malachy McKenna

**1B. Middle Welsh:** Dr Barry Lewis

11.30 – 13.00 **2A. Old Irish [introductory]:** Professor Patricia Kelly.

**2B. Old Irish [advanced]:** Professor Liam Breathnach.

14.30 – 15.30 **3. Early Modern Irish:** Dr Gordon Ó Riain

16.00 – 17.00 **4A. Early Irish Law and Society.** [Week 1] Professor Fergus Kelly.

**4B. Mediaeval Irish Manuscripts.** [Week 2] Dr Aoibheann Nic Dhonncha.

## SEMINARS AND LECTURES

Liam Breathnach completed a seminar on texts relating to satire, and began reading a set of previously unedited Early Irish Monastic Rules.

Pádraig Breathnach gave seminars on 'Some seventeenth- and eighteenth-century inedita' [February-April] and 'Materials for the study of ornamentation in *rannaigheacht*' [October-November].

Papers and lectures were delivered by staff at national and international conferences and venues as follows: [Liam Breathnach] 'Gníithe den bhforainm sa Mheán-Ghaeilge', UCD, 28 March; 'The *Trefocal* tract', DIAS 26 September; 'Legal aspects of The Poems of Blathmac', at the Sixteenth Irish Texts Society Annual Seminar, UCC, Saturday November 8th; 'Fíngen Mac Flainn's poem to the Fir Arddae: an Early Medieval Irish threat of satire', Postgraduate Seminar, Dept. of Early Irish, Maynooth University, 20 November. [Pádraig Breathnach] 'Ornamentation in *rannaigheacht*' DIAS 26 September. [Fergus Kelly] 'Early Irish Music: the documentary evidence', The Pipers' Club, Henrietta Street, Dublin 1, 21 February; 'Brehon law meets Anglo-Norman law: a 13th-century law-tract by Giolla na Naomh Mac Aodhagáin', Conference on Brehon Law Past and Present, Department of Law, National University of Ireland, Maynooth, 9 April; 'Cattle in ancient Ireland: early Irish legal aspects', Conference on Beef, Bulls, Butchers and Biodiversity, Birr, Co. Offaly, organised by Agricultural History Society of Ireland, 14 June; 'Early Irish law and society', School of Celtic Studies Summer School [six lectures], 14-19 July. [Barry Lewis] 'Approaching the genealogies of the Welsh saints', Tionól, 15 November. [Aoibheann Nic Dhonnchadha] 'Medical writing in Early Modern Irish, 1350–1650', Research

# Scoil an Línn Cheiltigh [ar leanúint]

Tugadh na páipéis seo leanas [san ord inar cuireadh i láthair iad]:

Liam Breathnach, 'The *Trefocal tract*'; Deborah Hayden, 'On grammatical questions in an unpublished fragment of *Auraicept na nÉces*'; Roisin McLaughlin, 'Unusual gnáthaiti in Mittelirische Verslehrten III'; Pádraig Ó Macháin, 'Grammar, prosody and the written text'; Gordon Ó Riain, 'A fragment of an early modern grammatical and metrical tract'; Eoin Mac Cártáigh, 'Comhthéacsanna IGT I'; Damian McManus, 'Fault-finding in IGT'; Ailbhe Ó Corráin, 'Rudimenta Grammaticae Hibernicae by Giolla Brighde [alias Bonaventura] Ó hEodhusa'; Caoimhín Breathnach, 'The manuscript sources of *Rudimenta Grammaticae Hibernicae*'; Pádraig A. Breathnach, 'Ornamentation in *rannaigheacht*'.

## SCOIL SAMHRAIDH

D'éirigh go breá leis an Scoil Samhraidh i mbliana, le beagnach 70 duine ag freastal ó gach aird den domhan. Lean an Scoil ón 14–26 lúil agus cuireadh na céasraí seo leanas ar fáil:

9.30 – 11.00	<b>1A. Modern Irish:</b> Dr Malachy McKenna
	<b>1B. Middle Welsh:</b> Dr Barry Lewis
11.30 – 13.00	<b>2A. Old Irish [introductory]:</b> Professor Patricia Kelly.
	<b>2B. Old Irish [advanced]:</b> Professor Liam Breathnach.
14.30 – 15.30	<b>3. Early Modern Irish:</b> Dr Gordon Ó Riain
16.00 – 17.00	<b>4A. Early Irish Law and Society.</b> [Week 1] Professor Fergus Kelly.
	<b>4B. Mediaeval Irish Manuscripts.</b> [Week 2] Dr Aoibheann Nic Dhonncha.

## SEIMINEÁIR AGUS LÉACHTAÍ

Chríochnaigh Liam Breathnach seimineár ar théacsanna faoin aoir, agus thosnaigh ar roinnt Rialacha Mainistreach luatha nár cuireadh in eagair cheana a léamh.

Reachtáil Pádraig Breathnach seimineár ar 'Some seventeenth- and eighteenth-century inedita' [Feabhrá-Albreán] agus ceann ar 'Materials for the study of ornamentation in *rannaigheacht*' [Deireadh Fómhair-Samhain].

Chuir baill foirne páipéis agus léachtaí i láthair ag comhdhálacha agus ag ionaid náisiúnta agus idirnáisiúnta mar seo a leanas: [Liam Breathnach] 'Gníthe den bhforainm sa Mheán-Ghaeilge', COBÁC, 28 Márt; 'The *Trefocal tract*',

DIAS 26 Meán Fómhair; 'Legal aspects of The Poems of Blathmac', ag an 16ú seimineár bliantúil de Chumann na Sgríbhéann nGaeidhilge, Coláiste na hOllscoile, Corcaigh, 8 Samhain; 'Fíngen Mac Flainn's poem to the Fir Arddae: an Early Medieval Irish threat of satire', Seimineár larchéime, Roinn na Sean-Ghaeilge, Ollscoil Mhá Nuad, 20 Samhain. [Pádraig Breathnach] 'Ornamentation in *rannaigheacht*' DIAS 26 Meán Fómhair. [Fergus Kelly] 'Early Irish Music: the documentary evidence', Na Píobairí Uilleann, Sráid Henrietta, Baile Átha Cliath 1, 21 Feabhrá; 'Brehon law meets Anglo-Norman law: a 13th-century law-tract by Giolla na Naomh Mac Aodhagáin', Comhdháil ar Dhlithe na mBreithiún, Roinn an Dlí, Ollscoil Mhá Nuad, 9 Aibreán; 'Cattle in ancient Ireland: early Irish legal aspects', Comhdháil ar 'Beef, Bulls, Butchers and Biodiversity', Biorra, Co. Ua bhFáilí, a d'eagair Cumann Stair Thalmhaíocht na hÉireann, 14 Meitheamh; 'Early Irish law and society', Scoil Samhraidh, Scoil an Léinn Cheiltigh [sé léacht], 14-19 lúil. [Barry Lewis] 'Approaching the genealogies of the Welsh saints', Tionól, 15 Samhain. [Aoibheann Nic Dhonnchadha] 'Medical writing in Early Modern Irish, 1350–1650', Seimineár Taighde, Dept. of Anglo-Saxon, Norse, and Celtic, Ollscoil Cambridge, 3 Márt; 'The Irish-speaking area of Co. Waterford: its cultural and linguistic heritage', Seimineár Nua-Ghaeilge, Dept. of Anglo-Saxon, Norse, and Celtic, Ollscoil Cambridge, 4 Márt; 'Medical writing in Irish, 1350 to 1650', Acadamh Ríoga an Leighis in Éirinn, Roinn Stair an Leighis, 16 Aibreán; 'Celebrating 600 years: Maynooth's earliest Irish manuscript', Comhdháil ar 'Charms and Magic in Medieval and Modern Ireland 2', Roinn na Sean-Ghaeilge, Ollscoil Mhá Nuad, 6 Meitheamh. [Brian Ó Curnáin] "Cé as aniar thu agus cé leis ansin thu?" Canúineolaíocht Chonamara', Acadamh na hOllscolaíochta Gaeilge, An Cheathrú Rua, Co. na Gaillimhe, 30 Meitheamh; 'Iníúchadh ar an gcumas dátheangach', seimineár Oideachas Gaeltachta - cá bhfuil ár dtírial? in Óstán Wynn, Baile Átha Cliath, 20 Samhain. [Gordon Ó Riain] 'A fragment of an early modern grammatical and metrical tract', DIAS 26 Meán Fómhair; Cúrsa ar an Nua-Ghaeilge Mhoch ag an Scoil Samhraidh. [Deborah Hayden] 'Observations on the "doors of death" in a medieval Irish medical catechism', Cruinníú Bliantúil den Celtic Studies Association of North America, Roanoke, Virginia, USA, Márt; 'Scholarly networks and information in medieval Ireland: the evidence of legal manuscripts', 14th Conference of the International Society for the Study of European Ideas, Porto, An Phortaingéil, Lúnasa [cainteoir le cuireadh]; 'On Grammatical questions in an unpublished fragment of *Auraicept na nÉces*', DIAS 26 Meán Fómhair [cainteoir le cuireadh]. [Síle Ní Mhurchú] 'Poetic contention in *Agallamh Oisín agus Phádraig*' at Fíanaigeacht: The Second International Finn Cycle Conference, Ollscoil Glaschú, 11 Lúnasa; 'Briathra Buile agus Comhrá Cliste: Gníthe d'Agallamh Oisín agus Phádraig' at Comhdháil ar

[Nicole Volmering] ‘The rhetoric of catastrophe in 11th century medieval Ireland: the case of The Second Vision of Adomnán’, 20th Annual ACMRS Interdisciplinary Conference, Scottsdale AZ, February 6-8; ‘Journeys to the Afterworld: “Apocalypse” or “Vision”?’, International Symposium On Christian Apocryphal Literature, Thessaloniki, June 26-29; ‘Visions, immrama and the Interim’, Session 302 Highway to Hell, Leeds International Medieval Congress, July 7-10. She also gave tutorials in Old Irish for one hour per week in the Autumn Semester, Maynooth University. [Mícheál Hoyne] ‘A survey of *brúilingeachd* verse’, Tionól.

## EDITING

Liam Breathnach was co-editor with D. Mc Manus of *Ériu* volume 64.

Pádraig Breathnach, Barry Lewis and Fergus Kelly worked as co-editors on *Celtica* 28.

Fergus Kelly was also internal editor of Elizabeth Boyle and Deborah Hayden [eds], *Authorities and Adaptations: The Reworking and Transmission of Sources in Medieval Ireland*.

Aoibheann Nic Dhonnchadha continued editorship, in association with Prof. Pádraig Ó Macháin, of *An Linn Bhúi: Iris Ghæltacht na nDéise*, volume 18 being published in 2014.

Deborah Hayden completed work on *Authorities and Adaptations: The Reworking and Transmission of Textual Sources in Medieval Ireland*, ed. by Elizabeth Boyle and Deborah Hayden [Dublin: DIAS, 2014], and continued work on *Grammar and Grammarians in Medieval Ireland and Wales*, ed. by Deborah Hayden and Paul Russell [forthcoming in the Studies in the History of the Languages Sciences Series, John Benjamins].

Nicole Volmering was a member of the editorial board for *Aigne* 6.

## EXTERNAL EXAMINING AND MEMBERSHIP OF COMMITTEES

Fergus Kelly was external examiner for the Department of Early and Medieval Irish, University College, Cork [2013-14], and for the Department of Old and Middle Irish and Celtic Philology, National University of Ireland, Galway [25 March]. He acted as mentor for a PhD thesis and a Post-doctoral Fellowship at the School of Archaeology, University College, Dublin. He was Chairman of the Publications Committee [until 11 June], a member of the Advisory Panel of Ogham in 3D Project, and a committee member of the Agricultural History Society of Ireland.

Barry Lewis was a member of the Advisory Board for the Cult of Saints in Wales Project and of the Editorial Board of the Poets of the Nobility Series [both for University of Wales Centre for Advanced Welsh and Celtic Studies].

Aoibheann Nic Dhonnchadha was a member of An Fochóiste Leabharlaine, Coláiste na Rinne, and of the editorial board of CELT. Brian Ó Curnáin was a member of the advisory committee of *Taighde*.

Gordon Ó Riain was a member of the International Advisory Board for project based at University of Connecticut, ‘Reading Early Modern Irish: a digital guide to Irish Gaelic [c. 1200-1650]’, and a member of the advisory board of the First Poznań conference of Celtic Studies, 18-19 October 2014.

# Scoil an Línn Cheiltigh [ar leanúint]

Litríocht agus ar Chultúr na Gaeilge, ONÉ Gaillimh, 11 Deireadh Fómhair 2014 [cainteoir le cuireadh]. [Nicole Volmering] 'The rhetoric of catastrophe in 11th century medieval Ireland: the case of The Second Vision of Adomnán', 20th Annual ACMRS Interdisciplinary Conference, Scottsdale AZ, Feabhra 6-8; 'Journeys to the Afterworld: "Apocalypse" or "Vision"?' International Symposium On Christian Apocryphal Literature, Thessaloniki, Meitheamh 26-29; 'Visions, immrama and the Interim', Session 302 Highway to Hell, Leeds International Medieval Congress, Iúl 7-10. Thug sí ranganna teagaisc Sean-Ghaeilge, 1 uair in aghaidh na seachtaine, i Seimeastar an Fhómhair in Ollscoil Mhá Nuad. [Mícheál Hoyne] 'A survey of brúilingeachd verse', Tionól 2014.

## EAGARTHÓIREACHT

Bhí Liam Breathnach ina chomheagarthóir le D. Mc Manus ar Ériu imleabhar 64.

D'oibrigh Pádraig Breathnach, Barry Lewis agus Fergus Kelly mar chomheagarthóirí ar ar *Celtica* 28.

Bhí Fergus Kelly ina eagarthóir inmheánach chomh maith ar Elizabeth Boyle agus Deborah Hayden [eag.], *Authorities and Adaptations: The Reworking and Transmission of Sources in Medieval Ireland*.

Lean Aoibheann Nic Dhonnchadha mar eagarthóir, i gcomhar leis an Ollamh Pádraig Ó Macháin, ar *An Linn Bhui: Iris Ghaeltacht na nDéise*, agus foilsíodh imleabhar 18 in 2014.

Chríochnaigh Deborah Hayden obair ar *Authorities and Adaptations: The Reworking and Transmission of Textual Sources in Medieval Ireland*, in eagair ag Elizabeth Boyle agus Deborah Hayden [DIAS, 2014], and lean sí le hobair ar *Grammar and Grammarians in Medieval Ireland and Wales*, in eagair ag Deborah Hayden agus Paul Russell [le foilsíú sa sraith Studies in the History of the Languages Sciences Series, John Benjamins].

Bhí Nicole Volmering ina ball den bhord eagarthóireachta do Aigne 6.

## SCRÚDÚCHÁN SEACHTRACH AGUS BALLRAÍOCHT CHOISTÍ

Bhí Fergus Kelly ina scrúdaitheoir seachtrach do Roinn na Luath-Ghaeilge agus na Gaeilge Meánaoisí, Coláiste na hOllscoile, Corcaigh 2013-14, agus do Roinn na Sean-Ghaeilge agus na Meán-Ghaeilge, Ollscoil Náisiúnta na hÉireann, Gaillimh. Bhí sé ina mheántóir ar thráchtas PhD agus ar Chomháltacht lardhochtúireachta ag Scioil na Seandálaíochta, Coláiste na hOllscoile, Baile Átha Cliath. Bhí sé ina Chathaoirleach ar Choiste na bhFoilseachán [go dtí 11

Meitheamh], ina bhalla de Choiste Comhairle don tionscnamh Ogham in 3D, agus ina bhalla de choiste Chumann Stair Thalmhaíochta na hÉireann.

Bhí Barry Lewis ina bhalla den Bhord Comhairleach don tionscnamh 'Cult of Saints in Wales' agus ina bhalla den Bhord Eagarthóireachta don sraith Poets of the Nobility [araon don Láirionad Ard-Léinn sa Bhreatnais agus an Léann Ceilteach, Ollscoil na Breataine Bige].

Bhí Aoibheann Nic Dhonnchadha ina ball den Fhochoiste Leabharlainne, Coláiste na Rinne, agus de bhord eagarthóireachta CELT.

Bhí Brian Ó Curnáin ina bhalla den choiste comhairleach do *Taighde*.

Bhí Gordon Ó Riain ina bhalla den Choiste Comhairleach Idirnáisiúnta do thionscnamh bunaithe in Ollscoil Connecticut, 'Reading Early Modern Irish: a digital guide to Irish Gaelic [c. 1200-1650]', agus ina bhalla de bhord comhairleach an Chéad Chomhdháil um Léann Ceilteach in Poznań, 18-19 Deireadh Fómhair 2014.

Bhí Deborah Hayden ina scrúdaitheoir do Roinn na Ceiltise in Ollscoil Oxford. Chomh maith leis sin bhí sí ina Cisteoir agus ina Rúnaí Ballraíochta den Henry Sweet Society for the History of Linguistic Ideas [[www.henrysweet.org](http://www.henrysweet.org)], agus ina ball den bhord eagarthóireachta don *Journal of Celtic Linguistics*.

Bhí Síle Ní Mhurchú ina ball den choiste eagraíochta do Fíanaigecht: The Second International Finn Cycle Conference, a reachtáladh in Ollscoil Glaschú, 11-12 Lúnasa 2014.

# School of Cosmic Physics

Among the scientific highlights of School's research during the year were the suggestion that the high-energy neutrinos recently detected by the Ice Cube experiment may be related to the mysterious "Fermi bubbles" and an extended Galactic halo, observations of dust evolution and planet formation in young stellar systems, improved global seismic tomography applied to regional models, and work on the potential for geothermal energy in Ireland. Full details of the work of the School can be found in the detailed sectional reports available on the DIAS website. In addition the year was marked by two major administrative events. The first was the quinquennial international peer review which took place over three days from 10 to 12 June [every School in DIAS is reviewed every five years]. The second was the search for a new Senior Professor to succeed Prof Alan Jones who announced his intention to retire at the end of the year.

The International review commissioned by the Council of the Institute was conducted by a panel chaired by Professor Brian Kennett from the Australian National University. The other members were Professors Jim Pringle [University of Cambridge], Andrew King [University of Leicester], Andreas Junge [University of Frankfurt], and Eoin O'Reilly [Tyndall National Institute, Cork]. The Review Committee received a comprehensive briefing package including submissions from each of the Sections, Annual Research Reports, and other background documents. Site visits were made to each Section and the Committee had the opportunity to speak with almost all members of the School from senior academics to scholars and technical staff.

While noting the considerable research, training and outreach successes of the School during a very difficult five year period the report endorsed the urgent need for succession planning and rejuvenation. This is particularly necessary with the imminent retirements of senior staff members and will help to reverse the negative impact of the recent economic crisis. The panel recommended the filling of the Senior Professorship in Geophysics as soon as possible following the retirement of Professor Jones and emphasised that this should be on an open basis and without any fettered resources. In the case of Astronomy and Astrophysics, the report noted the severe impact of the employment control framework on the number of Schroedinger Fellowships, an effect compounded by the prioritisation of national funding under the strategy

for science, technology and innovation towards areas seen as economically relevant and the consequent loss of externally funded postdoctoral positions. The panel recommended a carefully planned rejuvenation of astrophysics via targeted and staged appointments over the next few years. This should aim at establishing a well-focussed research group working in a carefully chosen topical area. It noted the utility of Schroedinger fellowships for this purpose and recommended the appointment of two new fellows. The panel further noted that membership of the European Southern Observatory is critical to sustaining the status of astronomy in Ireland and considered that this must remain a key strategic objective of the School.

Following the advice of the international review the Governing Board of the School launched a process to identify an outstanding geophysicist to succeed Professor Jones.

*Professor Chris Bean*

# Scoil na Fisice Cosmaí

I measc buaicphointí thaighde eolaíochta na Scoile i rith na bliana bhí an tuairim go mb'fhéidir go bhfuil na neoidrónónna ardfhuinnimh a aimsíodh le déanaí ag an turgnamh Ice Cube gaolta leis na "bolgóidí Fermi" rúndiamhracha agus luan Réaltrach sínithe, breathnuithe ar éabhlóid deannaigh agus foirmí pláinéid i gcórais réaltacha óga, tomagrafaíocht sheismeach dhomhanda fheabhsaithe curtha i bhfeidhm ar shamhlacha réigiúnacha, agus obair ar an bhféidearthacht don fhuinneamh geoiteirmeach in Éirinn. Is féidir sonraí iomlána ar obair na Scoile a fháil ar na tuairiscí rannóige mionsonracha atá ar fáil ar shuíomh gréasáin DIAS. Ina theannta sin, bhí dhá mhór-ócáid riarrachán ann le linn na bliana. Ba é an chéad cheann an t-athbhreithniú piaraí idirnáisiúnta cúigbhliantúil a rinneadh thar trí lá ón 10 go 12 Meitheamh [déantar athbhreithniú ar gach Scoil i DIAS gach cúig bliana]. Bá é an dara ceann an cuardach d'Ollamh Sinsearach nua le teacht ionad an Ollaimh Alan Jones a d'fhogair go raibh sé ar intinn aige dul ar scor ag deireadh na bliana.

Cuireadh an t-athbhreithniú idirnáisiúnta a d'ordainn Comhairle na hInstitiúide i gcrích ag painéal leis Ollamh Brian Kennett ó Ollscoil Náisiúnta na hAstráile ina chathaoirleach. B'íad seo a leanas na comhaltaí eile: na hOllúna Jim Pringle [Ollscoil Cambridge], Andrew King [Ollscoil Leicester], Andreas Junge [Ollscoil Frankfurt], agus Eoin O'Reilly [Institiúid Náisiúnta Tyndall, Corcaigh]. Tugadh pacáiste eolais cuimsitheach don Choiste Athbhreithnithe, lena n-áiríodh aighneachtaí ó gach ceann de na Rannóga, Tuairiscí Taighde Blantúla, agus cáipéisí cúrla eile. Tugadh cuairteanna suímh ar gach Rannóg agus bhí an deis ag an gCoiste labhairt le comhaltaí uile na Scoile, geall leis, idir lucht acadúil sinsearach agus scoláirí agus foireann theicniúil.

Cé gur tugadh aitheantas do rathanna suntasacha na Scoile sa taighde, san oiliúint agus san fhor-rochtain le linn tréimhse cúig bliana a bhí an-deacair, thacaigh an tuarascáil leis an ngá prínneach atá le pleannáil comharbais agus athnuachan. Tá sé seo riachtanach ach go háirithe mar thoradh ar bhaill fairne shinsearacha ag dul ar scor go luath agus cuideoihd sé leis an tionchar diúltach a bhí ag an ngéarchéim eacnamaíochta le déanaí a iompú ar ais. Mhol an painéal go líonfaí an post mar Ollamh Sinsearach sa Gheofisic a luaithe agus is féidir i ndiaidh don Ollamh Jones dul ar scor agus dúirt go láidir gur chóir é seo a dhéanamh ar bhonn oscailte agus gan acmhainní srianta ar bith. I gcás na Réalteolaíochta agus na Réaltfhisice, luagh an tuarascáil an tionchar tromchúiseach a bhí ag an gcreat rialaithe

fostaíochta ar líon na gComholtachtaí Schroedinger, agus cuireadh treisiú leis an tionchar sin mar thoradh ar an túis áite a tugadh sa mhaoiniú náisiúnta, faoin straitéis don eolaíocht, teicneolaíocht agus nuálaocht, do réimsí a fheictear a bheith ábhartha ó thaobh na heacnamaíochta de, agus cailleadh poist iardhochtúireachta le maoiniú seachtrach dá bharr. Mhol an painéal go mbeadh athbheochan a bheidh pleannáilte go cúramach ar an réaltfhisic ann trí cheapacháin spriocaimisithe agus chéimithe sna blianta beaga amach anseo. Ba chóir go ndíreofaí a leithéid ar ghrúpa taighde dea-dhírithe a bhunú, ag obair i réimse topaice a roghnófar go cúramach. Luagh sé úsáideacht na gComholtachtaí Schroedinger don chúis seo agus mhol sé go gceapfaí beirt chomhaltaí nua. Luagh an painéal freisin go bhfuil ballraíocht sa Réadlann Eorpach sa Leathsféar Theas ríthábhachtach le stádas na réalteolaíochta in Éirinn a chaomhnú agus mheas siad nach mór go bhfanfadh sé seo mar phríomh-chuspóir straitéiseach de chuid na Scoile.

Mar thoradh ar chomhairle an athbhreithnithe idirnáisiúnta, sheol Bord Rialaithe na Scoile próiseas chun sár-gheofisiceoir a aithint le teacht i gcomharbacht ar an Ollamh Jones.

Bhí sé seo á riart ag coiste cuardaigh idirnáisiúnta ar a raibh na hOllúna Gerry Wrixon [Cathaoirleach an Bhoird], Luke Drury [Stiúrthóir na Scoile], Mary Fowler [Ollscoil Cambridge], John McCloskey [Ollscoil Uladh] agus Hans-Peter Bunge [Ollscoil Munich]. Thug an coiste tuairisc ar ais faoina tháitil go dtí an Bord Rialaithe an 25 Meán Fómhair agus ar bhunús thuairisc an choiste d'aontaigh an Bord moladh a thabhairt don Aire Oideachais agus Scileanna go ndéanfadh Uachtaráin na hÉireann, ar chomhairle an Rialtais, an tOllamh Chris Bean a cheapadh ina Ollamh Sinsearach nua sa Gheofisic.

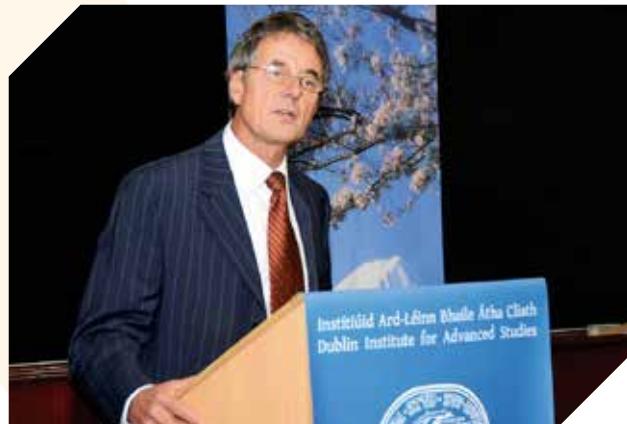

Is cuí ag an bpóinte seo aitheantas a thabhairt don chion a rinne an tOllamh Alan Jones le rannóg na Geoifisice agus leis an Scoil i rith a thréimhse i mBaile Átha Cliath. Leathnáigh sé obair na rannóige trí staidéar maighnéada-teallúrach, a réimse saineolais ar leith, a thabhairt isteach, rud atá úsáideach chun cuidiú leis na mórmhodhanna geoifisice d'anáilis sheismeach agus staidéar réimse féideartha a chothaigh sé freisin. D'éirigh leis maoiniú a fháil do Chlár larchéime Geo-eolaíochtaí na hÉireann, a chuir réimse de chúrsaí ar fáil do mhic léinn iarchéime ar fud an oileáin, agus i rith a thionachta freisin cuireadh an clár for-rochtana Seismeolaíocht sa Scoil i bhfeidhm chomh maith le comhar leis an Roinn Gnótháí Eachtracha san Eagraíocht an Chonartha um Chosc Cuimsitheach ar Thrialacha Núicléacha.

## School of Cosmic Physics [continued]

This was run by an international search committee consisting of Professors Gerry Wrixon [Board Chairman], Luke Drury [Director of the School], Mary Fowler [University of Cambridge], John McCloskey [University of Ulster] and Hans-Peter Bunge [University of Munich]. The committee reported back on its findings to the Governing Board on the 25th September and on the basis of the committee's report the Board agreed to recommend to the Minister for Education and Skills that Professor Chris Bean be appointed by the President of Ireland on the advice of Government as the New Senior Professor in Geophysics.

It is appropriate at this point to note the contribution that Prof Alan Jones made to the Geophysics section and the School during his period in Dublin. He broadened the work of the section by introducing magneto-telluric studies, his own particular area of expertise, which provides a useful complement to the major geophysical methods of seismic analysis and potential field studies which he also fostered. He was successful in obtaining funding for the Irish Geosciences Graduate Programme, which offered a range of courses to graduate students across the island, and his tenure also saw the roll-out of the Seismology in Schools outreach programme as well as collaboration with the Department of Foreign Affairs in the Comprehensive Test-Ban Treaty Organisation. He devoted much of his considerable energy to building up the section's resources and championed a more metrics driven approach to the management of the School.

Turning to science, in Astrophysics it has become clear in the last few years that the Galactic centre is more complex and dynamic at high-energies than previously thought. The "Fermi bubbles" detected in gamma-rays by the Fermi satellite are a clear indication of this and point to a large and extended outflow of cosmic-rays and gas from the central regions of our Galaxy. Interestingly if our Galaxy does have a large extended halo filled with cosmic rays and tenuous gas, as these observations suggest, then Andrew Taylor and Felix Aharonian have shown that high-energy neutrinos will be produced at rates comparable to those recently seen by the IceCube experiment at the South pole.

Professor Alan Jones

An tOllamh Alan Jones

As a result of recent improvements in observing facilities (notably the coming online of the Atacama Large Millimetre Array, ALMA, operated by the European Southern Observatory in Chile) the study of star formation has entered a very exciting phase where we are beginning to see planet formation as an integral part of star formation intimately connected to the evolution of dust in the proto-stellar disc and its outflows. Tom Ray was one of several authors who wrote a major review for *Protostars and Planets* on this topic and it will be a major focus of research with the James Webb Space Telescope where he is a co-PI on one of the European instruments.

In Geophysics the work by Sergei Lebedev and his student Andrew Schaeffer on global tomographic models is attracting wide attention and was recognised with the award of the Inaugural Graduate Research Award by the American Geophysical Union's focus group on the Study of the Earth's Deep Interior. Their models reveal the structure of the Earth's upper mantle in unprecedented detail and as well as the global modelling, now form the basis for a series of regional investigations.

# Scoil na Fisice Cosmaí [ar leanúint]

Chaith sé cuid mhór dá fhuinneamh suntasach le tógáil acmhainní na rannóige agus chothaigh sé cur chuige bunaithe níos mó ar mhéadacht i leith bhainistíocht na Scoile.

Maidir leis an eolaíocht, sa Réaltfhicic is léir le blianta beaga anuas go bhfuil an luan Réaltach níos casta agus níos dinimiciúla ag ardfhuinnimh ná mar a ceapadh roimhe. Léiriú soiléir air seo is ea na "bolgoidí Fermi" a aimsíodh i ngáma-ghathanna ag an saitilit Fermi, agus tugann siad le tuiscint go bhfuil eis-sreabhadh mór sínithe de ghathanna cosmachá agus gás ó réigiún láir ár Réaltair. Rud atá suimiúil, má tá luan mór sínithe ag ár Réaltair líonta le gathanna cosmachá agus gás, mar a thugann na breathnuithe seo le tuiscint, ansin tá sé léirithe ag Andrew Taylor agus Felix Aharonian go dtáirgeofar neoidrónónna ardfhuinnimh ag rátaí ionchurtha leis na cinn a chonacthas le déanaí ag an turgnamh Ice Cube ag an Mol Theas.

Mar thoradh ar fheabhsúcháin le déanaí in áiseanna breathnaithe (ach go háirithe teacht ar líne Atacama Large Millimetre Array, ALMA, atá á feidhmiú ag an Réaldann Eorpach sa Leathsféar Theas sa tSile) tá an staidéar ar fhoirmíú réalta tagtha chuig céim an-spreagúil ar fad ina bhfeicimid foirmíú pláinéid mar chuid dhúchasach d'fhoirmíú réalta sa diosca atá nasctha go dlúth le héabhlód deannaigh sa diosca próta-réaltach agus a eis-sreafá. Bhí Tom Ray ar dhuine de roinnt údar a scríobh léirmheas tábhachtach do Protostars and Planets ar an topaic seo agus beidh sé ina fhócas mór taighde leis an Teileascóp Spáis James Webb áit

a bhfuil sé ina chomh-Phríomhthaighdeoir ar cheann de na hionstraimí Eorpacha.

Sa Gheofísic tá an obair ag Segei Lebedev agus a mhac léinn Andrew Schaeffer ar shamhlacha tómagrafacha domhanda ag cothú spéise go forleathan agus tugadh aitheantas don obair sin le bronnadh an Ghradaim Taighde larchéime Tionscnaimh ag grúpa fócais an Aontais Gheofísce Mheiriceánaigh um Staidéar ar Thaobh Istigh Domhain an Domhain. Léiríonn a samhlacha struchtúr mhaintlín uachtarach an Domhain le mionsonraí nach bhfacthas a leithéid roimhe agus mar aon leis an samháltú domhanda, is bunús anois iad le sraith de fhiosruithe réigiúnacha.

Saincheisteanna tábhachtacha a bhaineann le gach aon duine againn is ea soláthairt fiannimh agus an gá lenár spleáchas ar charbón iontaise a laghdú. Cé nach dócha go mbeidh fuinneamh geoiteirmeach riamh ina mhórfhoinse fiannimh in Éirinn, tá féidearthacht ag baint leis, ach go háirithe do théamh limistéir ar ghrád íseal. Tá an tionscadal IRETERM le maoiniú ó SFI a fhéachann le suirbhé a dhéanamh ar acmhainní fiannimh gheoiteirmigh ag druidim chun deiridh agus tá sonraí suimiúla nua soláthraithe aige in dhá phríomh-réimse. Ar dtús, tá suirbhé déanta ar charraigeacha doimhne te tirime i bhfoirm réad eibhir i nGaillimh, Laighin agus sa Mhí. Sa dara háit, tá fiosrú déanta ar foinsí bogthe ghleann na Life mar thascairí ar uiscígh the. Braitheann an dá staidéar go mór ar shuirbhéanna maighnéada-teallúracha chun cur le faisnéis gheolaíoch.

## School of Cosmic Physics [continued]

Energy supplies and the need to reduce our dependence on fossil carbon are important issues facing all of us. While geothermal energy is never likely to be a major source of energy in Ireland, it does have potential especially for low-grade district heating. The SFI-funded IRETERM project which aims to survey Ireland's geothermal energy resources is nearing completion and has delivered interesting new data in two main areas. Firstly, deep hot dry rocks in the form of granite bodies have been surveyed in Galway, Leinster and Meath. Secondly, the warm springs of the Liffey valley have been investigated as indicators of hot aquifers. Both studies rely heavily on magneto-telluric surveys to complement geological information.

In outreach and communications the School cooperated with the Japanese embassy in organising a symposium by Dr Kaneda, Project Leader of the Earthquake and Tsunami Research Project for Disaster Prevention, on lessons learned from the great East Japan earthquake of 2011 and the devastating tsunami it generated. The annual statutory public lecture of the School was given by Prof Etienne Parizot from the University of Paris (a former researcher in the School) in TCD and was entitled "Cosmic Rays: a century of adventure and mysteries!". Luke Drury collaborated with artist Aisleen O'Beirn on her "Quaternion Quest" exhibition in Dublin City Council's LAB space as part of which a public conversation took place between Luke Drury and the physicist and poet Iggy McGovern on the connections between William Rowan Hamilton, Dunsink Observatory, Quaternions and poetry. A large number of outreach events, including the traditional "open nights", were held at Dunsink Observatory and the successful "Seismology in Schools" programme continued.

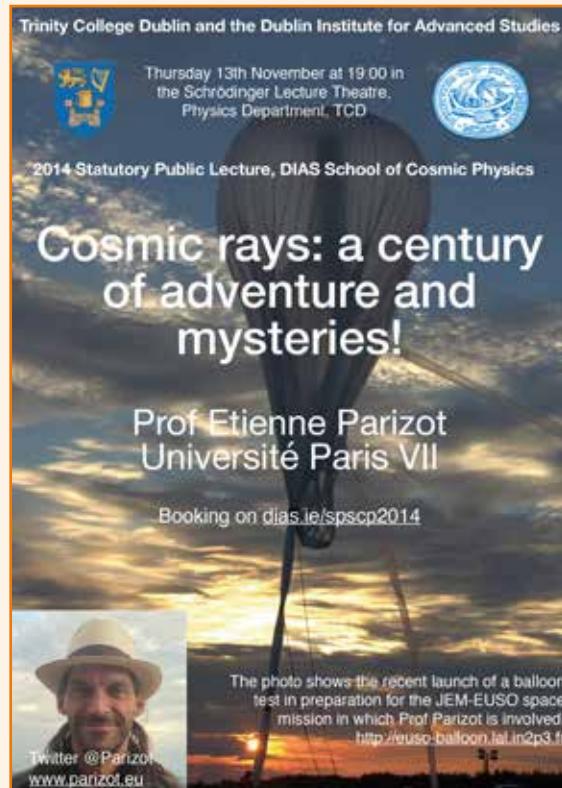

DIAS is involved with a new instrument called GRAVITY in collaboration with the Max Planck Institute for Astronomy in Heidelberg. The instrument will be shipped to the European Southern Observatory in Chile at Paranal in 2015. GRAVITY is a second generation instrument for the Very Large Telescope [VLT] Interferometer and will allow the measurement of the positions and motions of astronomical objects on scales far smaller than is currently possible. It will study not only the black hole at the centre of the Milky Way but also the birth of stars and planets which is of primary interest to DIAS.

Credit: MPE/GRAVITY team.

Tá DIAS páirteach le hionstraim nua ar a dtugtar GRAVITY i gcomhar leis an institiúid réalteolaíochta Max Planck i Heidelberg. Seolfar an ionstraim chuig an Réadlann Eorpach sa Leathsféar Theas sa tSile ag Paranal in 2015. Ionstraim den dara ghlúin is ea GRAVITY do Thrasnamhéadar an Teileascóip An-Mhór [VLT] agus cuideoidh sí le tomhas ar shuíomhanna agus gluaiseachtaí de réada réalteolaíocha ar scálaí I bhfad níos lú ná mar atá indéanta faoi láthair. Déanfaidh sí staidéar, ní hamháin ar an dúpholl i gcroílár Bhealach na Bó Finne, ach freisin ar bhreith réaltaí agus pláinéad, an rud is mó a bhfuil suim ag DIAS ann. Creidiúint: Foireann MPE/GRAVITY.

# Scoil na Fisice Cosmaí [ar leanúint]

Maidir le cúrsaí for-rochtana agus cumarsáide, chomhoibrigh an Scoil le hambasáid na Seapáine san eagrú ar shiompóisiam leis an Dr Kaneda, Ceannaire Tionscadail don Tionscadal Taighde Um Chrith Talún agus Súnámaí um Chosc Tubaiste, maidir le ceachtanna a foghlaimíodh ó chrith talún ollmhór na Seapáine Thoir i 2011 agus an súnámaí tubaisteach a ghin sé. Tugadh léacht phoiblí reachtúil na Scoile ag an Ollamh Etienne Parizot ó Ollscoil Pháras [iar-thaighdeoir sa Scoil] i gColáiste na Tríonóide agus ba é “Cosmic Rays: a century of adventure and mysteries!” an teideal. D’oibrigh Luke Drury i gcomhar leis an ealaíontóir Aisleen O’Beirn ar a taispeántas “Quaternion Quest” i spás LAB Chomhairle Cathrach Átha Cliath agus mar chuid de sin bhí comhrá poiblí ann idir Luke Drury agus an fisiceoir agus file Iggy McGovern maidir leis na náisc idir William Rowan Hamilton, Réadlann Dhún Sinche, Ceathairnín agus an fhilíocht. Eagraíodh líon mór d’ócaidí forrochtana, lena n-áirítear na “hoícheanta oscailte” traidisiúnta, ag Réadlann Dhún Sinche agus leanadh den chlár rathúil “Seismeolaíocht sna Scoileanna”.

The statutory public lecture of the School for\*\* 2014, entitled “Cosmic Rays: a century of adventure and mysteries!” was given by Professor Etienne Parizot of the Université Paris VII, a former postdoctoral researcher in the School. Professor Parizot was introduced by the Provost of Trinity, Professor Patrick Pendergast.

Thug an tOllamh Etienne Parizot ó Université Paris VII, taighdeoir iardhochtúireachta sa Scoil an léacht reachtúil phoiblí Scoil na Fisice Cosmaí dar teideal “Cosmic Rays: a century of adventure and mysteries!”. Chuir Propast Choláiste na Tríonóide, an tOllamh Patrick Prendergast an tOllamh Parizot in aithne don lucht éisteachta.

## Theses

- Jan Dostal:** "Modelling of the Magnetic Field Induced by Ocean Circulation." Ph.D. thesis, Institute for Meteorology, Free University in Berlin, successfully defended in November 26, 2014 [supervisors Z.Martinec and M. Thoma].
- Emily Neenan,** "A Seismic Surface-Wave Study of Asia, Using Automated Broadband Interstation Measurements." An MSc thesis submitted to Trinity College Dublin [supervisor: S. Lebedev]. Degree awarded: November, 2014.

## Invited presentations

- Lebedev, S.**, 2014. Imaging Mediterranean lithospheric dynamics. Invited seminar, University of Nice, Sophia Antipolis. 17 April.
- Lebedev, S.**, T. Meier, **A.J. Schaeffer, M.R. Agius**, and **J. M.-C. Adam**, 2014. Seismic structure and dynamics of cratons: Stability and modification, continental collision and subduction, Invited Talk [29 April], EGU2014-1789, European Geosciences Union General Assembly 2014, Vienna, Austria, 27 April – 02 May.
- Lebedev, S.**, 2014. Dynamics of the Earth's Tectonic Plates: Insights from Seismic Structure and Anisotropy. Invited seminar, University College Dublin, 14 October.
- Schaeffer, A.J.**, and **S. Lebedev**, 2014. Seismic tomography of the Arctic: Structure and evolution of the lithosphere, Invited Talk, Workshop of the Circum-Arctic Lithosphere Evolution [CALE] Consortium, Vancouver, Canada, 18 October.
- Schaeffer, A.J.**, and **S. Lebedev**, 2014. Imaging the Mantle Transition Zone Using Multimode Waveform Tomography, Invited Talk, American Geophysical Union Fall Meeting, San Francisco, 15–19 December.

# School of Theoretical Physics

According to the DIAS Act and the STP Establishment Order of 1940 the duties of the school are to undertake and publish research into the mathematical principles of natural philosophy and the application of those principles to physics [including cosmology], the training of advanced students, the provision of facilities for university professors and lecturers on Leave of Absence from their academic duties and the organisation of seminars, conferences, and lectures. These lectures must include an annual statutory public lecture at UCD or TCD.

In 1940 the Irish universities were not yet able to fulfill these functions in a satisfactory way. This has changed, but university researchers are much more constrained due to other obligations and financial pressures. DIAS is more comparable to research institutes like the Princeton IAS [the model for DIAS] and the Max Planck Institutes. Most of the available funding is channelled into 14 National Priority Areas, which have little overlap with our research. Area A [Future Networks and Communications] might come close if quantum information were included, and some of our related research has relevance for non-abelian anyons and topological insulators, thus the 'Novel Materials' part of area M [Processing Technologies and Novel Materials]. The 14 areas aim at short-term economic benefit, however. The funding programmes of Science Foundation Ireland concern the 14 areas of 'any area under SFI's legal remit where strong evidence can be provided of significant industrial relevance and strong economic impact'.

## 1. Staff and Associates

STP comprises of three senior professors [T. Dorlas, W. Nahm, D. O'Connor]. Until 2014 the research staff of the School also included three Schrödinger fellows, but this was cut to two. Two of the three Schrödinger fellows had ended their term in 2013, Stefano Kovacs in early 2014. He was replaced by Graham Kells on 1.5.2014. The second newly appointed Schrödinger fellow, Leron Borsten had asked for a late start in January 2015. In view of our financial situation this corresponded to our interests and was granted. For 2014 it left us with a reduced research staff, however. Our scholar positions were used for both postdoc [M. Beau, B. Savoie and M. Leitner] and predoc students [T. Kaltenbrunner, O. Smits and M. Vachovskij]. The latter finished their studies and obtained their PhDs in 2014. The research staff was supplemented by one scholar financed by IRCSET [V. Filev, at STP since 2012].

*Professor Freeman Dyson, Institute for Advanced Study, Princeton, presented the '2014 Statutory Public Lecture' of the School of Theoretical Physics May 2014.*

*Thug an tOllamh Freeman Dyson, Institiúid Ard-Léinn, Princeton an Léacht Reachtúil Phoiblí 2014 Scoil na Fisice Teoiriciúla Bealtaine 2014.*

For many of our associates DIAS has provided a suitable environment for advancing their research. Since his retirement T. Tchrakian works here, C. Nash [NUIM] comes often and on a regular basis. B. Dolan works with Denjoe O'Connor's group and was very active in our journal club, e.g. concerning the search for dark matter and the status of supersymmetry, but he moved to Edinburgh for most of the year.

Secretarial tasks were split between the librarian and a secretary of the administration. This is not an ideal solution, but it works. Library and IT support is satisfactory.

## 2. Research

D.O'Connor's main research interests are fuzzy geometries, matrix models and the emergence of geometry in phase transitions.

Along with our IRCSET fellow V. Filev, D.O'Connor wrote two papers on Commuting Quantum Matrix Models. In the first one, 'On the Phase Structure of Commuting Matrix Models' they analyzed models with quadratic and quartic potentials and found that the physics of these systems depends crucially on the number  $p$  of matrices. For  $p$  at most 4 there is a phase transition with topology change when the matrices are large. For greater  $p$  the system is always in the topologically non-trivial phase.

# Scoil na Fisice Teoiriciúla

De réir Acht DIAS agus Ordú Bunaithe Scoil na Fisice Teoiriciúla 1940 is iad na dualgais atá agaínn ná taighde a dhéanamh agus a fhoilsíú ar phrionsabail mhatamaiticiúla na fealsúnachta nádúrtha agus cur i bhfeidhm na bpriónsabail sin ar an bhfisic [lena n-áirítear an chosmeolaíocht], oiliúint ar mhic léinn iarchéime, aíseanna a sholáthar d'ollúna agus léachtóirí ollscoile ar shaoire neamhláithreachta óna ndualgais acadúla, agus seimineáir, comhdhálacha agus léachtáit a eagrú. Ní mór go n-áireodh na léachtáit léacht phoiblí reachtúil bhlantúil sa Choláiste Ollscoile, Baile Átha Cliath nó Coláiste na Tríonóide, Baile Átha Cliath.

Sa bhliain 1940 ní raibh ollscoileanna na hÉireann ábalta fós na feidhmeanna seo a chur i gcrích ar bhonn sásúil. Tá athrú tagtha ar an scéal ó shin, ach tá srianta i bhfad níos nó ar thaighdeoirí ollscoile mar thoradh ar dhualgais eile agus brúnna airgeadais. Tá DIAS níos inchomparáide le hinstítiúidí taighde amhail Princeton IAS [an múnla do DIAS] agus Institítiúidí Max Planck. Cuirtear formhór an mhaoinithe atá ar fáil isteach i 14 Limistéar Tosaíochta Náisiúnta, nach bhfuil ach forlú beag acu lenár dtaighde. D'fhéadfadh Limistéar A [Líonraí agus Cumarsáid sa Todhchai] a bheith cóngarach dá mbeadh faisnéis candomach san áireamh, agus tá cuid d'ár dtaighde gaolmhar ábhartha do *anyons* neamh-aibéalacha agus insliteoirí toipeolaíocha, mar sin an chuid 'Ábhair Núiosacha' de limistéar M [Teicneolaíochtaí Próiseála agus Ábhair Núiosacha]. Tá na 14 limistéar diríthe ar leas eacnamaíoch gearrthéarma, áfach. Baineann cláir mhaoinithe Fhondúireacht Eolaíochta Éireann [SFI] leis na 14 limistéar 'd'aon limistéar faoi shainordú dlíthíúil SFI áit is féidir fianaise láidir a sholáthar ar ábharthacht thionsclaíoch shuntasach agus tionchar eacnamaíoch láidir'.

## 1. Foireann agus Comhaltaí

I Scoil na Fisice Teoiriciúla tá triúr ollúna sinsearacha [T. Dorlas, W. Nahm, D. O'Connor]. Go dtí 2014 bhí triúr comhaltaí Schrödinger ar foireann taighde na Scoile freisin, ach gearradh an líon seo go dtí beirt. Bhí a dtéarma críochnaithe ag beirt de na comhaltaí Schrödinger sa bhliain 2013, agus ag Stefano Kovacs go luath sa bhliain 2014. Tháinig Graham Kells san ionad air an 1.5.2014. Lorg an dara comhalta Schrödinger nuacheaptha, Leron Borsten, tosach déanach in Eanáir na bliana 2015. I bhfianaise ár staide airgeadais bhí sé seo ag teacht lenár leasa agus deonadh é. Fágadh foireann taighde laghdaithe againn don bhliain 2014, áfach. Baineadh úsáid as ár bpoist scoláire do mhic léinn iardhochtúireachta [M. Beau, B. Savoie agus M. Leitner] agus réamh dhochtúireachta [T. Kaltenbrunner, O. Smits agus M. Vachovski] araon. Chríochnaigh an triúr deireanach sin a staidéar agus bhain siad a gcéimeanna PhD amach i 2014. Cuireadh leis an

bhfoireann taighde ag scoláire amháin maoinithe ag IRCSET [V. Filev, atá i Scoil na Fisice Teoiriciúla ó 2012].

Do neart d'ár gcomhaltaí chuir DIAS timpeallach oiriúnach ar fáil chun a dtaighde a chur chun cinn. I ndiaidh dó dul ar scor oibríonn T. Tchrakian anseo, tagann C. Nash [OÉM] go minic agus ar bhonn rialta, oibríonn B. Dolan le grúpa Denjoe agus bhí sé an-ghníomhach inár gcumann irise, m.sh. maidir leis an gguardach ar dhamhna dorcha agus stádas na sárshiméadrachta, ach bhog sé go Dún Éideann d'fhormhór na bliana.

Roinneadh tascanna rúnaíochta idir an leabharlannaí agus rúnaí de chuid an riarracháin. Ní hé seo an réiteach is fearr, ach oibríonn sé. Tá tacáiocht leabharlainne agus teicneolaíochta faisnéise sásúil.

## 2. Taighde

Is iad na príomhbáhair taighde ag D. O'Connor ná geoiméadrachtaí doiléire, samhlacha maitríse agus teacht chun cinn na geoiméadrachta i bpas-trasdulta.

Lenár gcomhaltaí IRCSET V. Filev scríobh sé dhá páipéar ar Shamhlacha Maitríse Candamacha Timaistríthe. Sa chéad cheann, 'On the Phase Structure of Commuting Matrix Models' rinne siad anailís ar shamhlacha le poitéinsil chuadraatacha agus chuartacha agus fuair siad amach go mbíonn fisic na góras sin ag brath go ríthábhachtach ar líon p na maitrisí. I gcásanna ina bhfuil p cothrom le 4 ar a mhéad, bíonn pas-trasdul le hathrú toipeolaíochta ann nuair a bhíonn na maitrisí mó. Maidir le cásanna i bhfuil p níos mó, bíonn an córas i gcónaí sa chéim toipeolaíochta neamh-bheagbhríoch. Rinneadh an obair anailíse sa treo seo a dhearbhú ag ionsamhluithe uimhriúla ríomhaire. Foilsíodh an páipéar i JHEP 1408 [2014] 003.

Sa dara páipéar, 'Commuting Quantum Matrix Models', arxiv:1408.1388, rinne siad staidéar ar ab gcoinníoll faoinar féidir le córas dá leithéid de mhaitrisí timaistríthe p bunstaid fuinnimh chríochta a bheith acu. Sa foirmliú Lagrangian, tharla go bhfuil gá le poitéinseal léir cuaire-spleách, ach sa foirmliú Hamilton is féidir é seo a sheachaint. Le go mbeadh geoiméadracht ag teacht chun cinn ann, ní mór dual-luachanna srianta go géar a bheith ann nuair atá méid mó ag na maitrisí. Arís, tharla go raibh an luach p=4 ríthábhachtach. Fuair na húdair amach go mbíonn na dual-luachanna srianta do sceall sféarach nuair a bhíonn p ar a laghad 4, ach nach mbíonn do líon níos lú maitrisí. Cuireadh an páipéar isteach do JHEP.

## School of Theoretical Physics [continued]

The analytic work in this direction was confirmed by numerical computer simulations. The paper was published in JHEP 1408 [2014] 003.

In the second paper, 'Commuting Quantum Matrix Models', arxiv:1408.1388, they studied the condition under which such a system of  $p$  commuting matrices can have a finite energy ground state. In the Lagrangian formalism it turned out that one needs an explicit curvature dependent potential, but in the Hamilton formalism this can be avoided. To have an emerging geometry one needs sharply constrained eigenvalues when the matrices have large size. Again the value  $p=4$  turned out to be critical. The authors found that the eigenvalues are constrained to a spherical shell when  $p$  is at least 4, but not for fewer matrices. The paper was submitted to JHEP.

There were four papers published by V. Filev which study quarks and mesons in supersymmetric theories using holographic duality. The paper 'Flavours in global Klebanov-Witten background' was written in the last days of 2013 and included in the 2013 STP report. It was published in JHEP 1403 [2014] 023.

Among three of the papers, two study mesons on a sphere under the influence of a large magnetic field. The first 'Holographic Bilayer/Monolayer Phase Transitions' was written with D. Zoakos [in Porto] and our former IRCSET fellow M. Ihl, [now also in Porto]. The gravity dual of the theory was obtained by a suitable embedding of 5-dimensional flavour branes. An analysis of the meson spectrum confirmed the stability of the confining bilayer solution. The paper was published in JHEP 1407 [2014] 043. The second paper, 'A Quantum Critical Point from Flavours on a Compact Space' looked in more detail at the phase diagram of the model. Though there is no deconfining phase once a magnetic field is present, there is a first order phase transition of a different type, with a second order phase transition at the end of the corresponding line in the phase diagram. Critical exponents were evaluated. The study of the magnetisation uncovered a persistent diamagnetic response similar to that in mesoscopic systems, such as quantum dots and nano-tubes. The paper was published in JHEP 1408 [2014] 105.

The fourth paper introduced a novel supergravity background holographically dual to the flavoured  $N=1$  Supersymmetric Yang-Mills theory. Quark masses are described in terms of spherical cavities with radii proportional to the masses.

An interesting feature of the model is the screening of the interaction between heavy and light quarks. The paper was published in JHEP 1412 [2014] 186.

T. Dorlas main research interests are quantum information and aspects of quantum mechanics related to path integrals. A fundamental result in quantum information theory was J. Bell's inequalities published 50 years ago. Dorlas discussed the present status of the research in 'Bell's inequalities, 50 years later, DIAS-STP-1406. Along with his postdoc student M. Beau he published a new version of 'Quantum slit diffraction in space and in time of a Gaussian wave packet and semi-classical approximation' [June 2014] with more detailed calculations for the experimental observability of quantum fluctuations. At present the task would be very challenging, but future advances in technology may change that. Also with M. Beau he wrote 'Three-dimensional Quantum Slit Diffraction and Diffraction in Time', DIAS-STP-1404. In this research, reflecting screens with arbitrary aperture are investigated, in particular with regard to the quantum nature of the motion perpendicular to the screen and the presence of gravity. The paper was accepted by the International Journal of Theoretical Physics.

Together the two postdocs M. Beau and B. Savoie published two papers. In 'Rigorous investigation of the reduced density matrix for the ideal Bose gas in harmonic traps by a loop-gas-like approach' they investigated the reduced density matrix associated to the ideal Bose gas in harmonic traps by an appropriate decomposition. For isotropic traps this reproduces known results, but for anisotropic traps it opens new territory, in particular for the study of quasi-one- and two-dimensional regimes. The results can guide numerical investigations on highly anisotropic systems based on the Path Integral Monte Carlo method. The paper was published in J.Math.Phys. 55 [2014] 053301. In 'Gaussian decay for a difference of traces of the Schrödinger semigroup associated to the isotropic harmonic oscillator' they gave sharp estimates for the trace difference, with an application within the framework of quantum statistical mechanics. The paper was published in J. Math. Anal. Appl. 419 [2014] 1095.

In Professor Werner Nahm's group, the paper 'Membranes from monopole operators in ABJM theory: Large angular momentum and M-theoretic AdS4/CFT3' by S. Kovacs and collaborators was published in PTEP 2014 [2014] 093B01. This paper realises the first test of  $AdS/CFT$  duality in a region where membrane degrees of freedom are important.

## Scoil na Fisice Teoiriciúla [ar leanúint]

Foilsíodh ceithre pháipéar le V. Filev ina ndéantar staidéar ar chuairc agus méasónin i dteoiricí sárshiméadraча ag baint úsáide as déacht holagrafach. Scríobhadh an páipéar 'Flavours in global Klebanov-Witten background' sna laethanta deiridh de 2013 agus cuireadh san áireamh é i dtuairisc 2013 ó Scoil na Fisice Teoiriciúla. Foilsíodh é i JHEP 1403 [2014] 023.

I measc trí cinn de na páipéir, déantar staidéar i ndá cheann acu ar mhéasónin ar sféar faoi thionchar ag réimse mhaighnéadach mhór. Scríobhadh an chéad cheann acu, 'Holographic Bilayer/Monolayer Phase Transitions' le D. Zoakos i Porto agus ár n-iarchomhalta IRCSET M. Ihl, atá lonnaithe i Porto anois freisin. Baintear déacht domhantarraingthe na teoirice amach trí neadú cúi ar bhráiní blaise 5-thoiseach. Le hainilís ar an speictream méasónin dearbháodh seasmhacht an réitigh déchisil gaibhniúcháin. Foilsíodh an páipéar i JHEP 1407 [2014] 043. Sa dara páipéar, 'A Quantum Critical Point from Flavours on a Compact Space' féachadh níos mine ar phasléaráid na samhlach. Cé nach bhfuil aon chéim díshainmhínithe nuair a bhíonn réimse mhaighnéadach i láthair, tá pas-trasdul céadoird de chineál éagsúil ann, le pas-trasdul dara oird ag deireadh na líne comhfhereagair sa phasléaráid. Rinneadh meastóireacht ar easpónaint chríticiúla. Sa staidéar ar an maighnéadacht, nochtáodh freagra diansheasmhach diamaighnéadach cosúil leis sin i gcorrás mhéasascópacha, amhail poncanna candaṁacha agus nana-fheadáin. Foilsíodh an páipéar i JHEP 1408 [2014] 105.

Sa cheathrú páipéar cuireadh i láthair cúrla sár-dhomhantarraingte núiosach déach go holagrafach leis an teoiric Shárshiméadraчh blasta N=1 Yang-Mills. Tugtar cur síos ar mhaiseanna cuairc i dtéarmaí cuas sféaracha le gathanna comhréireach leis na maiseanna. Gné shuimiúil den tsamhail is ea scáileadh na hidrighníomhaíochta idir chuairc throma agus éadroma. Foilsíodh an páipéar i JHEP 1412 [2014] 186.

Is iad na príomhábhair taighde ag T. Dorlas ná faisnéis chandamach agus gnéithe de mheicnic chandamach a bhaineann le suimeálaithe conaire. Toradh bunúsach i dteoiric na faisnéise candamaí ab ea éagothromóidí J. Bell a foilsíodh 50 bliain ó shin. Phléigh Dorlas stádas reatha an taighde i 'Bell's inequalities, 50 years later', DIAS-STP-1406. Lena mhac léinn iardhochtúireachta M. Beau d'fhoilseigh sé leagan nua de 'Quantum slit diffraction in space and in time of a Gaussian wave packet and semi-classical approximation' [Meitheamh 2014] le ríomhanna níos mionsonraithe d'inhbreathnaitheacht thurgnamhach ar iomlaoidí candaṁacha. Faoi láthair bheadh an-dúshlán ag baint le tasc dá leithéid, ach b'fhéidir go n-athróidh an scéal mar

thoradh ar an dul chun cinn sa teicneolaíocht amach anseo. In éineacht le M. Beau freisin scríobh sé 'Three-dimensional Quantum Slit Diffraction and Diffraction in Time', DIAS-STP-1404. Ansin déantar fiosrú faoi scáileán fhrithchaiteacha le cró treallach, ach go háirithe maidir le nádúr cantamach na gluaiseachta ingearach don scáileán agus láithreacht na domhantarraingte. Ghlac an International Journal of Theoretical Physics leis an bpáipéar.

The RIA Gold Medals are awarded to two outstanding academics each year and are recognised as a truly national expression of celebration for scholarly achievement. The 2014 RIA Gold Medals were awarded by Minister Jan O'Sullivan at a special ceremony in the RIA, Dublin, [Tuesday January 27, 2015]. The medals are sponsored by The Higher Education Authority, and the Gold Medal for the Humanities was awarded to Desmond Clarke, Professor [emeritus] of Philosophy at University College Cork.

Bronntar na Boinn Óir RIA ar bheirt sár acadóirí gach bliain agus aithnítear iad mar cheiliúradh náisiúnta ar éacht scolártha. Bhronn an tAire Jan O'Sullivan na Boinn Óir RIA 2014 ag searmanas speisialta san RIA, Baile Átha Cliath, [Dé Máirt 27 Eanáir 2015]. Déanann an tÚdarás um Ard-Oideachas urraíocht ar na boinn, agus bronnadh an Bonn Óir sna Daonnachtáil ar Desmond Clarke, Ollamh [emeritus] Fealsúnachta ag Coláiste na hOllscoile Corcaigh.

## School of Theoretical Physics [continued]

Previously only BPS or superstring observables could be tested. In view of the importance and high quality of this research it is very regrettable that Kovacs could not find a position in Ireland.

G. Kells wrote 'Many-body Majorana operators and the unitary equivalence of parity sectors', arxiv 1409.6575. He investigated one-dimensional p-wave topological superconductors and showed that the degeneracy of states with opposite parity cannot be lifted by local interactions except for very short wires. The derivation of this result carries over to the experimentally relevant cases.

A paper published by G. Kells on 'Kitaev spin models from topological nanowires networks' concerns the possibility to use such networks for quantum computation in the context of Kitaev's spin model. The author found that the spin model with two-body interactions can indeed be realized by the network. The paper was published in Phys. Rev. B89 [2014] 7, 075122.

Cormac O'Raifeartaigh, Brendan McCann, W. Nahm and S. Mitton published 'Einstein's steady-state theory: an abandoned model of the cosmos', European Physical Journal H 39 [2014] 353. The paper discusses an unpublished manuscript by Einstein in which he attempted to construct a 'steady-state' model of the universe, anticipating the later steady-state cosmology of Hoyle, Bondi and Gold in some ways. The paper got much international media attention.

M. Leitner obtained her PhD in mathematics [her second PhD after the one in physics]. Her TCD thesis on 'CFTs on Riemann Surfaces of genus  $g > 1$ ' was put online. In May 2014 new results on the partition functions in higher genus were incorporated in 'CFTs on Riemann Surfaces of genus  $g > 1$ : Dependence on moduli', version 3 of arxiv 1305.0469, with W Nahm. The new version contains more than twice the material than the 2013 versions. The major problem arising in 2013 was solved by a better understanding of the operator product expansions of the ramifications which arise for mappings to projective space. When two of these points get close, one finds regular singular points in our differential equations with rather unusual properties, namely high degeneracy of the critical indices but no logarithms. We had expected the degeneracies to increase like powers of 2 when the genus is increased, but found Fibonacci numbers. Since the work is intended for a leading mathematics journal, it still needs better axiomatic foundations, to be provided in 2015.

With F. Laytimi, Nahm worked out vanishing conditions for Schur functors of ample vector bundles which are generated by sections. In most cases one finds stronger results than in the case where the latter condition is omitted. This provides essential sign-posts for the search of optimal vanishing theorems. The results have not yet been written up for lack of time. The paper 'Generation by sections and k-amenability' was accepted by Journal of Algebra.

With the assyriologist D. Lacambre, Lille, Nahm worked on the paper 'Pithana, an Anatolian ruler in the time of Samsuiluna of Babylon. New data from Tell Rimah', is to be published in 2015. Based on a seal from the Syrian Site of Tell Rimah the authors showed that Anatolian influence on Northern Mesopotamia started a century earlier than what had been known so far, with important consequences for the chronology of the second millennium BC. As a side product, Nahm corrected the reading of a cuneiform tablet found at Tell Rimah, which yields a better understanding of the geography of the kingdom in the late Old Babylonian period. 'Marhatan in Oldbabylonian Tell Rimah' was published in NABU, Dec. 2014, 128.

The PhD work of O. Smits was incorporated in the paper 'Non-equilibrium noise in the [non-]Abelian fractional quantum Hall effect' by W. Nahm, J. Slingerland and S. Simon, arXiv:1401.4581.

### 3. Conferences and lectures

The 2014 Statutory Public Lecture of the School of Theoretical Physics was given by Professor Freeman Dyson [Institute for Advanced Study, Princeton]. The lecture was held in UCD on Monday 19th May and was entitled "Are Brains Analog or Digital?"

It found much public interest. In view of personal contact going back to the stay of the Dublin physicist Sheila Power at Princeton in 1948-49, her son Hugh Tinney gave a piano performance for Dyson.

Our School supported the 2014 conference on Irish Quantum Foundations, 30-31 May, which in this year took place at TCD.

G. Kells gave a talk on Topological blocking in quantum quench dynamics and W. Nahm gave the concluding summary talk of the meeting.

On 27 May, W. Nahm gave the RIA Academy Discourse on 'The Date of Hammurabi', based on his interdisciplinary research on Mesopotamian chronology.

# Scoil na Fisice Teoiriciúla [ar leanúint]

In éineacht lena chéile, d'fhoilsigh an bheirt mhac léinn iardhochtúireachta M. Beau agus B. Savoie dhá pháipéar. Sa pháipéar 'Rigorous investigation of the reduced density matrix for the ideal Bose gas in harmonic traps by a loop-gas-like approach' d'fhiosraigh siad an mhaitris ar dhlús laghdaithe a ghabhann leis an ngás Bose idéalach i dtrapanna armónacha faoi dhianscaoileadh cuí. Maidir le trapanna iseatrópacha athchrutháonn sé seo tortháit atá ar eolas, ach maidir le trapanna ainiseatrópacha oscláonn sé réimse nua, ach go háirithe don staidéar ar rémis aontoiseacha agus dé-thoiseacha shamhlacha. Féadfaidh na tortháit treoir a thabhairt d'fhiosruithe uimhriúla ar chórais ard-ainiseatrópacha bunaithe ar an gcóras suimeálaithe conaire Monte Carlo. Foilsíodh an páipéar i J. Math. Phys. 55 [2014] 053301. Sa pháipéar 'Gaussian decay for a difference of traces of the Schrödinger semigroup associated to the isotropic harmonic oscillator' thug siad meastachán ghéara don difear rianta, le eichmiú laistigh de chreat na meicnice candaí staidrimh. Foilsíodh an páipéar i J. Math. Anal. Appl. 419 [2014] 1095.

I ngrúpa Nahm, foilsíodh an páipéar 'Membranes from monopole operators in ABJM theory: Large angular momentum and M-theoretic  $AdS_4/CFT^3$ ', le S. Kovacs agus comhoibrithe, i PTEP 2014 [2014] 093B01. Sa pháipéar seo réadaítear an chéad tástáil ar dhéach AdS/CFT i réigiún ina bhfuil céimeanna saorise scannán tábhachtach. Roimhe seo ní fhéadfaí ach inbhreathnaithigh BPS nó sártheaghráin a thástáil. I bhfianaise tábhacht agus ardcháillíocht an taighde seo is trua go mór nach raibh Kovacs in ann post a aimsiú in Éirinn.

Scríobh G. Kells 'Many-body Majorana operators and the unitary equivalence of parity sectors', arxiv 1409.6575. D'fhiosraigh sé forsheoltóirí toipeolaíocha aontoiseacha agus léirigh sé nach féidir an díchineálacht de staideanna ar phaireacht mhalartach a ardú le hidirghníomhaíochtaí áitiúla ach amháin do shreangán an-ghearra. Leantar le díorthú an toraidh seo chuig na cásanna ábhartha turgaimh.

Baineann páipéar a d'fhoilsigh G. Kells maidir le 'Kitaev spin models from topological nanowires networks' leis an bhféidearthacht go mbainfí úsáid as líonraí dá leithéid do ríomh candaíach i gcomhthéacs na samhlach rothlaithe Kitaev. Fuair an t-údar amach gur féidir go deimhin an tsamhail rothlaithe le hidirghníomhaíochtaí dhá réad a réadú ag an líonra. Foilsíodh an páipéar i Phys. Rev. B89 [2014] 7, 075122.

D'fhoilsigh Cormac Ó Raifeartaigh, Brendan McCann, W. Nahm agus S. Mitton 'Einstein's steady-state theory: an abandoned model of the cosmos', European Physical Journal H 39 [2014]

353. Pléann an páipéar lámhscríbhinn neamhfhoilsithe le Einstein ina rinne sé iarracht samhail 'fhoistine' den chruinne a chruthú, ag déanamh amach roimh ré an chosmeolaíocht fhoistine níos déanaí de chuid Hoyle, Bondi agus Gold ar roinnt bealaí. Tharraing an páipéar neart aird ó na meáin idirnáisiúnta.

Bhain M. Leitner amach a céim PhD sa mhataimaitic [a dara céim PhD i ndiaidh an chinn san fhisic]. Cuireadh a tráchtas do Choláiste na Tríonóide, Báile Átha Cliath ar 'CFTs on Riemann Surfaces of genus  $g>1$ ' ar líne. I mBealtaine na bliana 2014 cuireadh tortháit nua maidir leis na feidhmeanna deighleora in ard-ghéineas san áireamh i 'CFTs on Riemann Surfaces of genus  $g>1$ : Dependence on moduli', leagan 3 de arxiv 1305.0469, le W Nahm. Sa leagan nua tá níos mó ná dhá oiread an ábhair ná mar a bhí i leaganacha 2013. Réitíodh an phríomhfhadhb a tháinig chun cinn i 2013 trí thuisint níos fearr ar fhorbairtí táirge oibrí na n-iarmháirtí a éiríonn do mhapálacha do spás teilgeach. Nuair a théann dhá cheann de na pointí sin i gcóngar, aimsíonn ceann amháin pointí aonair rialta inár gcothromóidí difréalacha le hairíonna atá cineál neamhghnách, is é sin díchineálacht ard de na hinneacsanna critiúla ach gan logartam. Cheapamar go méadódh na díchineálachaí amhail cumhachtaí 2 nuair a mhéadaítear an géineas, ach d'aimsíomar uimhreacha Fibonacci. Toisc go bhfuil sé beartaithe an obair a fhoilsiú i mór-iris matamaitice, tá gá aici le boinn aicsímeacha níos fearr, atá le soláthar i 2015.

In éineacht le F. Laytimi, d'oiobrigh Nahm amach coinníollacha téaltaithe d'fheidhmeoirí Schur de chuail veicteora imleor a ghíntear ag codanna. I bhformhór na gcásanna aimsítear tortháit níos láidre ná sa chás ina bhfágtaí an choinníoll deireanach ar lár. Soláthraíonn sé seo treoracha bunúsacha don chuardach ar theoríomh téaltaithe optamacha. Níl na tortháit scríofa suas go fóill de cheal ama. Ghlac an Journal of Algebra leis an bpáipéar 'Generation by sections and k-ampleness'.

In éineacht leis an saineolaí ar an an Aisiria D. Lacambre, Lille, d'oiobrigh Nahm ar an bpáipéar 'Pithana, an Anatolian ruler in the time of Samsuiluna of Babylon. New data from Tell Rimah', atá le foilsíú i 2015. Bunaithe ar shéala ón suíomh Siriach, Tell Rimah, léirigh na húdair gur thosaigh tionchar Anatólach ar Thuaisceart na Measpáimé céad bliain níos luaithe ná mar a bhí ar eolas go dtí seo, le tortháit tábhachtacha do chroineolaíocht na dara mílaoise BC. Mar thírge taoibh, cheartaigh Nahm an léamh de thíríbléad dingchruthach a fuarthas ag Tell Rimah, a thugann tuiscint níos fearr de thíreolaíocht na ríochta sa ré Sean-Bhablónach déanach. Foilsíodh 'Marhatan in Oldbabylonian Tell Rimah' i NABU, Dec. 2014, 128.

## School of Theoretical Physics [continued]

A Workshop on Nano-Science and Quantum Matter in Low Dimensions took place at DIAS from 10th to 12th November. The meeting was organized jointly by DIAS and Maynooth University. The aim of the workshop was to bring together leading scientists in nano-science, condensed matter and quantum information with a view to fostering interdisciplinary communication and collaboration.

### **4. Recognition**

Professor Werner Nahm, received the RIA 2014 Gold Medal for Physical and Mathematical Sciences. In recognising his work the Academy commented that through his pioneering research, he has contributed substantially to a wide range of fields but especially mathematical physics. The Academy also commented that Professor Werner Nahm is exceptional for his deep insight into the mathematical structures underlying quantum field theory. He is described as a genuine polymath and recently brought his unique combination of mathematical, linguistic and astronomical knowledge to bear on the question of the precise dating of Assyrian chronology, with important implications for the chronology of the Middle East and studies of historical climate change.

# Scoil na Fisice Teoiriciúla [ar leanúint]

Ionchorpraíodh saothar PhD de chuid O. Smits sa pháipéar ‘Non-equilibrium noise in the [non-] Abelian fractional quantum Hall effect’ leis féin, J. Slingerland agus S. Simon, arXiv:1401.4581.

## 3. Comhdhálacha agus léachtaí

Ba é an tOllamh Freeman Dyson (Institute for Advanced Study, Princeton) a thug Léacht Phoiblí Reachtúil Scoil na Fisice Teoiriciúla 2014. Tugadh an léacht sa Choláiste Ollscoile, Baile Átha Cliath Dé Luain an 19 Bealtaine agus ba é “Are Brains Analog or Digital?” an teideal a bhí uirthi. Spreag sí neart suime poiblí. I bhfianaise na teagmhála pearsanta ag dul siar go cuairt an fhisiceora Sheila Power as Baile Átha Cliath ag Princeton i 1948–49, thug a mac Hugh Tinney ceolchoirm ar an bpianó do Dyson.

Thug ár Scoil tacaiocht do chomhdháil na bliana 2014 ar Bhoinn Chandamacha Éireannacha, 30-31 Bealtaine, a bhí ann i mbliana i gColáiste na Tríonóide, Baile Átha Cliath.

Thug G. Kells caint ar bhlocáil thoipeolaíoch i ndnimic fuaraithe chandamach agus thug W. Nahm an chaint deiridh achoimre den chruinniú.

An 27 Bealtaine, thug W. Nahm Aitheasc Acadaimh de chuid Acadamh Ríoga na hÉireann ar ‘The Date of Hammurabi’, bunaitear a thaighde idirdhisciplíneach ar chroineolaíocht na Measpataíme.

Bhí ceardlann ar Naineolaíocht agus Ábhar Candamach i nDiminsin Ísle ar bun ag DIAS ón 10 go 12 Samhain. B’íad DIAS agus Ollscoil Mhá Nuad a chomheagraigh an cruinniú. Ba í aidhm na ceardlainne ná eolaithe is túisce sa naineolaíocht, san ábhar comhdhlúite agus san fhaisnéis chandamach a thabhort le chéile d’fheonn cumarsáid agus comhoibriú idirdhisciplíneach a chur chun cinn.

## 4. Aitheantas

Bhain an tOllamh Werner Nahm Bonn Óir Acadamh Ríoga na hÉireann 2014 do na hEolaíochtaí Fisiceacha agus Matamaítice amach. Agus aitheantas á thabhairt dá shaothar, dúirt an tAcadamh, gurb amhlaidh, trína thaighde ceannródaíoch, gur chuir sé go mór le raon leathan de réimsí ach go háirithe don fhísic mhatamaíticiúil. Dúirt an tAcadamh freisin go bhfuil an tOllamh Werner Nahm eisceachtúil as a léargas domhain ar na struchtúir mhatamaíticiúla atá mar bhunús le teoirc réimse chandamach. Tugtar fíor-ileolaí air agus le déanaí chuir sé a mheascán uathúil d’eolas matamaíticiúil, teangeolaíoch agus réalteolaíoch i bhfeidhm ar an gceist maidir le dátú cruinn Chróineolaíocht na hAisiria, le torthaí tábhachtacha do chroineolaíocht an Mheán-Oirthir agus staidéar ar athrú aeráide stairiúil.

# Administration and Finance

The terms of the Haddington Road Agreement were implemented for all staff. The increase in working hours is being implemented on a phased basis. Recruitment restrictions coupled with further cuts in the Pay Grant continue to present difficulties in filling key posts. There is also growing pressure on administrative and technical support services. Staff co-operated fully with the introduction of new standardised leave arrangements and other measures aimed at minimising the impact of staffing reductions.

With the help of an external PR adviser, steps were taken during the year to better promote the work of DIAS and to enhance public engagement. This resulted in better publicity with coverage of a number of events during the year in the national media.

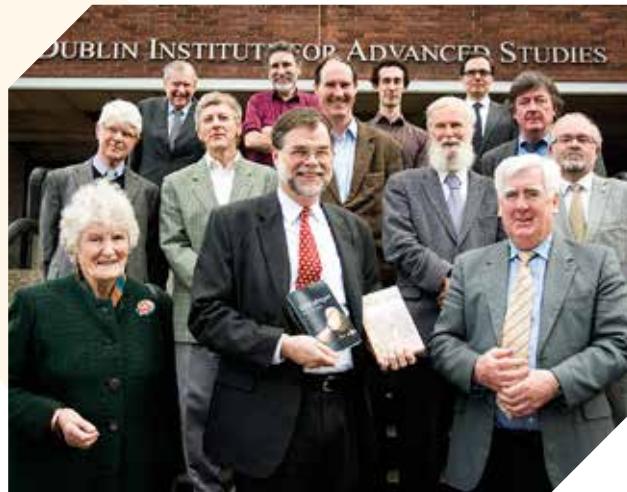

A review of fire safety systems commenced at the end of the year which has identified urgent measures required to upgrade the fire safety system at the Burlington Road site. A plan is currently being developed to address this.

## Finance

The attached financial statements report a profit of €200,589 for the year. This compares with a loss of €19,058 in the year to 31st December 2013. The reason for the profit in 2014 is due to the release of income in relation to the Cosmogrid project of €509,056. This income figure is offset by an overspend on the non-pay to meet the costs of the upgrade to the fire safety systems and investment in the Fionn cluster.

Total income for the Institute increased from €9,049,979 in 2013 after adjusting for pensions to €9,156,446 in 2014.

This represents an increase of €106,464 or 1.176% and the main increase occurred in projects due to the release of income on the Cosmogrid project. This income figure is offset in part by a decrease in the Grant-In-Aid.

# Riarachán agus Airgeadas

Cuireadh téarmaí Chomhaontú Bhóthar Haddington i bhfeidhm don fhoireann uile. Tá an méadú ar uaireanta oibre á chur i bhfeidhm ar bhonn céimnithe. Mar thoradh ar shrianta earcaíochta chomh maith le tuilleadh ciorruthe sa Deontas Pá, tá deacrachtaí ann le poist thábhachtacha a lónadh. Tá brú breise freisin ar sheirbhísí riarracháin agus tacaíochta teicniúla. Chomhoibrigh an fhoireann go hiomlán le tabhairt isteach socruite nua caighdeánacha saoire agus le bearta eile a fhéachann le tionchar na laghduithe fairne a mhaolú.

Le cabhair ó chomhairleoir seachtrach um Chaidreamh Poiblí, rinneadh bearta i rith na bliana chun obair DIAS a chur chun cinn níos fearr agus chun feabhas a chur ar rannpháirtiocht phoiblí. Mar thoradh air seo, bhí poiblíocht níos fearr ann agus clúdaíodh roinnt ócáidí i rith na bliana sna meáin náisiúnta.

Cuireadh tú le hathbhreithniú ar chórais sábháilteachta dóiteáin ag tú le bliana a d'ainthín bearta phráinneacha atá de dhíth chun an córas sábháilteachta dóiteáin ag láthair Bhóthar Burlington a uasghrádú. Tá plean á fhorbairt faoi láthair chun aghaidh a thabhairt air seo.

## Airgeadas

Tuairiscíonn na ráitis airgeadais iniata go raibh brabach €200,589 ann don bhliain. Tá sé seo i gcomparáid le caillteanas €19,058 sa bhliain go dtí an 31 Nollaig 2013. Is í an chúis leis an mbrabach sa bhliain 2014 ná an scoileadh ioncaim de €509,056 maidir leis an tionscadal Cosmogrid. Fritháirítear an tsuim ioncaim seo le róchaiteachas sa neamhphá chun na costais a shásamh don uasghrádú ar na córais sábháilteachta dóiteáin agus infheistíocht sa bhrasile Fionn.

Méadaíodh ar an ioncam ionmlán don Institiúid ó €9,049,979 in 2013 i ndiaidh leasaithe do phinsin go dtí €9,156,446 in 2014.

# Statement of Responsibilities of the Council

The Council of the Dublin Institute for Advanced Studies is required under section 28(2) of the Institute for Advanced Studies Act 1940 to prepare financial statements in such form as shall be approved by the Minister for Education & Skills with the concurrence of the Minister for Finance.

In preparing those financial statements the Council is required to:

- select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Institute will continue in operation; and
- disclose and explain any material departures from applicable accounting standards.

The Council is responsible for keeping proper books of account which disclose with reasonable accuracy at any time the financial position of the Institute and which enable it to ensure that the financial statements comply with Section 28(2) of the Act. The Council is responsible for safeguarding the assets of the Institute and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**Anders Ahlqvist**  
Council Member

**Liam Breathnach**  
Council Member

# Statement on Internal Financial Control

## Responsibility for Internal Financial Control

On behalf of the Council of the Institute I acknowledge our responsibility for ensuring that an effective system of internal financial control is maintained and operated.

The system can only provide reasonable and not absolute assurance that assets are safeguarded, transactions authorised and properly recorded, and that material errors or irregularities are either prevented or would be detected in a timely period.

## Key Control Procedures

The Council has taken steps to ensure an appropriate control environment by

- clearly defining management responsibilities;
- establishing formal procedures for reporting significant control failures and ensuring appropriate corrective action.

The Council has established processes to identify and evaluate business risks by

- identifying the nature, extent and financial implication of risks facing the Institute including the extent and categories which it regards as acceptable;
- assessing the likelihood of identified risks occurring;
- assessing the Institute's ability to manage and mitigate the risks that do occur;
- assessing the costs of operating particular controls relative to the benefit obtained.

The system of internal financial control is based on a framework of regular management information, administrative procedures including segregation of duties, and a system of delegation and accountability.

In particular it includes:

- comprehensive budgeting system with an annual budget which is reviewed and agreed by the Council of the Institute;
- regular reviews by the Council of periodic and annual financial reports which indicate financial performance against forecasts;

- setting targets to measure financial and other performance;
- adherence to public procurement guidelines;
- regular reviews by the Council of external research projects.

The Audit Committee continues to review internal control matters and issues raised by the Comptroller and Auditor General. In 2014, the Audit Committee met on three occasions.

In addition, the 2014 report on internal control systems as provided by the Internal Auditor has been made available to Members of Council.

The Council's monitoring and review of the effectiveness of the system of internal financial control is informed by the work of the internal auditor, the Registrar and other officers within the Institute who have responsibility for the development and maintenance of an appropriate financial control framework and comments made by the Audit Committee and the Comptroller and Auditor General in his management letter or other reports.

## Annual Review of Controls

I confirm that in the year ended 31st December 2014 , Council conducted a review of the effectiveness of the internal financial controls of the Institute.

Signed on behalf of the Council of the Institute

**Vincent Cunnane**

*Chairman - Council of the Institute*

25th June 2015

# Comptroller and Auditor General

## Report for presentation to the Houses of the Oireachtas

I have audited the financial statements of the Dublin Institute for Advanced Studies for the year ended 31 December 2014 under the Institute for Advanced Studies Act 1940. The financial statements, which have been prepared under the accounting policies set out therein, comprise the Accounting Policies, the Income and Expenditure Account, the Statement of Total Recognised Gains and Losses, the Balance Sheet, the Cash Flow Statement and the related notes. The financial statements have been prepared in the form prescribed under Section 28 of the Act and in accordance with Generally Accepted Accounting Practice in Ireland.

### Responsibilities of the Council

The Council is responsible for the preparation of the financial statements, for ensuring that they give a true and fair view of the state of the Institute's affairs and of its income and expenditure, and for ensuring the regularity of transactions.

### Responsibilities of the Comptroller and Auditor General

My responsibility is to audit the financial statements and report on them in accordance with applicable law.

My audit is conducted by reference to the special considerations which attach to State Bodies in relation to their management and operation.

My audit is carried out in accordance with the International Standards on Auditing (UK and Ireland) and in compliance with the Auditing Practices Board's Ethical Standards for Auditors.

### Scope of Audit of the Financial Statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements, sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the Institute's circumstances, and have been consistently applied and adequately disclosed
- the reasonableness of significant accounting estimates made in the preparation of the financial statements, and
- the overall presentation of the financial statements.

I also seek to obtain evidence about the regularity of financial transactions in the course of audit.

In addition, I read the Institute's Annual Report to identify material inconsistencies with the audited financial statements. If I become aware of any apparent material misstatements or inconsistencies I consider the implications for my report.

### Opinion on the Financial Statements

In my opinion, the financial statements, which have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland, give a true and fair view of the state of the Institute's affairs at 31 December 2014 and of its income and expenditure for the year then ended.

In my opinion, proper books of account have been kept by the Institute. The financial statements are in agreement with the books of account.

### Matters on which I Report by Exception

I report by exception if:

- I have not received all the information and explanations I required for my audit, or
- my audit noted any material instance where money has not been applied for the purposes intended or where the transactions did not conform to the authorities governing them, or
- the information given in the Institute's Annual Report is not consistent with the related financial statements, or
- the Statement on Internal Financial Control does not reflect the Institute's compliance with the Code of Practice for the Governance of State Bodies, or
- I find there are other material matters relating to the manner in which public business has been conducted.

I have nothing to report in regard to those matters.

**Colette Drinan**

For and on behalf of the Comptroller and Auditor General

# Accounting Policies

## GENERAL

The Institute was established under the Institute for Advanced Studies Act, 1940.

Its functions include the provision of facilities for the furtherance of advanced studies and the conduct of research in specialised branches of knowledge. It comprises three Schools - Celtic Studies, Theoretical Physics and Cosmic Physics.

## ACCOUNTING POLICIES

### 1. Basis of Accounting

The financial statements have been prepared on an accruals basis under the historical cost convention and in accordance with generally accepted accounting practice. Financial Reporting Standards recommended by the recognised accounting bodies are adopted as they become applicable.

### 2. Oireachtas Grants

Income is shown on a cash received basis.

### 3. Fixed Assets

Fixed Assets comprise the furniture, equipment, computers and motor vehicles of the Institute and are shown at cost less accumulated depreciation. The rates of depreciation, calculated on a straight line basis, are as follows:

Furniture and Equipment	10%
Computers	25%
Motor Vehicles	25%

Premises occupied by the Institute are leased from the Office of Public Works.

### 4. Capital Reserve

The capital reserve represents the unamortised value of income used for the purchase of Fixed Assets.

### 5. Library

Expenditure on library books and materials is written off in the year in which it is incurred.

### 6. Publications

Expenditure on publications is written off in the year in which it is incurred.

### 7. Superannuation

The Dublin Institute for Advanced Studies operates a defined benefit pension scheme which is funded annually on a pay as you go basis from monies available to it, including monies provided by the Department of Education and Skills and from contributions deducted from staff salaries.

Pension costs reflect pension benefits earned by employees in the period and are shown net of staff pension contributions which are retained by the Dublin Institute for Advanced Studies. An amount corresponding to the pension charge is recognised as income to the extent that it is recoverable, and offset by grants received in the year to discharge pension payments.

Actuarial gains or losses arising on scheme liabilities are reflected in the Statement of Recognised Gains and Losses and a corresponding adjustment is recognised in the amount recoverable from the Department of Education and Skills.

Pension liabilities represent the present value of future pension payments earned by staff to date. Deferred pension funding represents the corresponding asset to be recovered in future periods from the Department of Education and Skills.

### 8. Projects

The Dublin Institute for Advanced Studies receives external funding from industry, government bodies and the European Commission. A chart of accounts is maintained for each project.

Income and expenditure on projects is reflected in the financial statements in the year to which they relate. A surplus or deficit on a project is reflected in the financial statements when realised.

#### Note

Project receipts are applied as project income, at a level that equals the annual expenditure incurred by the associated project. The closing balances above represent overhead earned to date and advance funding to meet financial commitments in 2015. The capital column outlines the expenditure on fixed assets during 2014.

### 10. Leasing

#### Operating Leases

The premises occupied by the Institute are leased from the Office of Public Works.

The premises include Observatory House Dunsink, 5 Merrion Square, 9-10 Burlington Road and 31 Fitzwilliam Place.

There is a term of 84 years left on the lease for Observatory House and the other leases are renewed on an annual basis.

The commitment on foot of such leases in respect of 2015 is €113,609.

Office of Public Works Leases	Annual Rent
	€
Observatory House Dunsink	330
5 Merrion Square	5,022
9-10 Burlington Road	50,167
31 Fitzwilliam Place	58,090
	<b>113,609</b>

## Notes to the Financial Statements [continued]

### 11. Pension Costs

#### a) Analysis of total pension costs charged to Expenditure

	2014 [€'000]	2013 [€'000]
Current Service Cost	953	1,019
Interest on Pension Scheme Liabilities	1,669	1,593
Employee Contributions	(130)	(141)
	<b>2,492</b>	<b>2,471</b>

#### b) Movement in Net Pension Liability during the financial year

	2014 [€'000]	2013 [€'000]
Net Pension Liability at 1 January	(44,190)	(45,125)
Current Service Cost	(953)	(1,019)
Interest Costs	(1,669)	(1,593)
Actuarial [Loss]/Gain	(8,342)	2,307
Pensions Paid in the Year	1,284	1,240
<b>Net Pension Liability at 31 December</b>	<b>(53,870)</b>	<b>(44,190)</b>

#### c) Deferred Funding for Pensions

DIAS recognises these amounts as an asset corresponding to the unfunded deferred liability for pensions on the basis of the set of assumptions described above and a number of past events. These events include the statutory basis for the establishment of the pension scheme, and the policy and practice in relation to funding public service pensions including contributions by employees and the annual estimates process.

While there is no formal agreement regarding these specific amounts with the Department of Education and Skills, the DIAS has no evidence that this funding policy will not continue to meet such sums amount in accordance with current practice. The Net Deferred Funding for Pensions recognised in Income and Expenditure Account was as follows:

	2014 [€'000]	2013 [€'000]
Funding Recoverable in Respect of Current Year Pension Costs	2,622	2,612
State Grant Applied to Pay Pensioners	(1,284)	(1,240)
	<b>1,338</b>	<b>1,372</b>

The deferred funding asset for pensions as at 31 December 2014 amounted to €53.870 million [2013: €44.190 million].

#### d) History of defined benefit obligations

	2014 [€'000]	2013 [€'000]	2012 [€'000]
Defined Benefit Obligations	53,870	44,190	45,125
Experience [Gains]/Losses on Scheme Liabilities Amount.	309	(487)	2,499
Percentage of Scheme Liabilities.	0.60%	(1.10%)	5.50%

The cumulative actuarial [gain]/loss recognised in the Statement of Total Recognised Gains and Losses amounts to €4,941,000.

## Notes to the Financial Statements [continued]

### 11. Pension Costs (continued)

#### e) General Description of the Scheme

The pension scheme is a defined benefit final salary pension arrangement with benefits and contributions defined by reference to current "model" public sector scheme regulations. The scheme provides a pension [eightieths per year of service], a gratuity or lump sum [three eightieths per year of service] and spouse's and children's pensions. Normal Retirement Age is a member's 65th birthday, and pre 2004 members have an entitlement to retire without actuarial reduction from age 60. Pensions in payment [and deferment] normally increase in line with general public sector salary inflation. The valuation used for FRS17 disclosures has been based on a full actuarial valuation by a qualified independent actuary taking account of the requirements of the FRS in order to assess the scheme liabilities at 31 December 2014.

The principal actuarial assumptions were as follows:

	2014	2013	2012
Rate of Increase in Salaries	2.50%	3.00%	3.00%
Rate of Increase in Pensions in Payment	2.00%	2.50%	2.50%
Discount Rate	2.25%	3.75%	3.50%
Inflation Rate	1.50%	2.00%	2.00%

The mortality basis adopted allows for improvements in life expectancy over time, so that the life expectancy at retirement will depend on the year in which a member attains retirement age (age 65). The table below shows the life expectancy for members attaining age 65 in 2014 and 2034.

Year of Attaining Age 65	2014	2034
Life Expectancy - Male	87.3	89.9
Life Expectancy - Female	88.7	90.9

### 12. Disclosure of Transactions

The Council of the Institute adopts procedures in accordance with guidelines issued by the Department of Finance in relation to the disclosure of interests by Council Members and these procedures have been adhered to by the Council Members during the year. No Council Member has declared an interest.

## Notes to the Financial Statements [continued]

### 13. Disclosure of Council Members/Registrar Salary, Fees and Expenses

	Total Remuneration 2014	Total Expenses 2014	Total Remuneration 2013	Total Expenses 2013

# Ráiteas Freagrachtaí na Comhairle

Éilltear ar Chomhairle Institiúid Ard-Léinn Bhaile Átha Cliath faoi alt 28[2] den Acht um Institiúid Ard-Leighinn, 1940 ráitis airgeadais a ullmhú ar shlí a cheadóidh an tAire Oideachais & Eolaíochta le comhthoiliú an Aire Airgeadais.

Agus an Chomhairle ag ullmhú na ráitis airgeadais sin éilltear uirthi:

- polasaithe chuntasaíochta oiriúnacha a roghnú agus iad a chur i bhfeidhm go comhleanúnach;
- breithíúnais agus meastachán a dhéanamh atá réasúnach agus stuama;
- na ráitis airgeadais a ullmhú ar bhonn gnóthais leantach mura bhfuil sé míchuí glacadh leis go leanfaidh an Institiúid ag oibriú; agus
- aon imeacht ábhartha ó chaighdeáin chuntasaíochta infheidhme a nochtadh agus a mhíniú

Tá freagracht ar an gComhairle leabhair chuntais chearta a choinneáil a nochtáíonn ag aon am le cruinneas réasúnach staid airgeadais na hInstitiúide agus a chuireann ar a cumas a chinntí go gcloíonn na ráitis airgeadais le hAlt 28[2] den Acht. Tá freagracht ar an gComhairle sócmhainní na hInstitiúide a shlánú agus as céimeanna réasúnacha a ghlacadh le cosc a chur ar chalaois agus ar neamhrialtachtaí eile agus iad a aimsiú.

# Ráiteas faoin gCóras Rialaithe Airgeadais Inmheánaigh

## Freagrácht as an gCóras Rialaithe Airgeadais Inmheánaigh

Thar ceann Chomhairle na hInstitiúide is mian liom ár bhfreagrácht a chur in iúl lena chinntíú go ndéantar cothabhlí agus go n-oibrítear córas rialaithe airgeadais inmheánaigh.

Ní féidir leis an gcóras ach dearbhú réasúnach agus ní dearbhú críochnaitheach a chur ar fáil go ndéantar slánú ar shócmhainní, go mbíonn idirbheartaíochtaí údaraithe agus taifeadta i gceart, agus go gcuirtear cosc ar earráidí ábhartha nó ar neamhrialtachtaí nó go n-aimseofaí iad i dtréimhse chaoithiúil.

## Nósanna Imeachta Rialaithe Lárnacha

Tá céimeanna glactha ag an gComhairle lena chinntíú go mbeidh timpeallacht rialaithe chuí i bhfeidhm trí

- sainmhíniú soiléir a thabhairt maidir le freagrachtaí bainistíochta;
- nósanna imeachta foirmiúla a bhunú le teipeanna rialaithe suntasacha a thuairisciú agus lena chinntíú go dtógtar gníomh cuí leis an gceist a cheartú.

Tá próisis bunaithe ag an gComhairle le rioscaí gnó a aithint agus iad a luacháil trí

- nádúr, méid agus tionchar airgeadais na rioscaí a bhíonn os comhair na hInstitiúide a aithint lena n-áirítear méid agus catagóir a mheasann an Institiúid a bheith inghlactha;
- measúnú a dhéanamh ar an dóchúlacht atá ann go dtarlóidh na rioscaí aitheanta;
- measúnú a dhéanamh ar chumas na hInstitiúide na rioscaí a tharlaíonn a bhainistiú agus a mhaolú;
- measúnú a dhéanamh ar na costais a bhaineann le rialachán airithe a oibriú a bhaineann leis an sochar a bhaintear amach.

Tá an córas rialaithe airgeadais inmheánaigh bunaithe ar chreat oibre eolais bainistíochta rialta, nósanna imeachta riacháin lena n-áirítear dualgais a roinnt, agus córas toscaireachta agus cuntasachta.

Áirítear leis go háirithe:

- córas buiséid cuimsitheach le buiséad blantúil a ndéanann Comhairle na hInstitiúide athbhreithniú air agus a bhíonn comhaontaithe aici;
- athbhreithnithe rialta ag an gComhairle ar thuairiscí airgeadais tréimhseacha agus blantúla a léiríonn feidhmíocht airgeadais in aghaidh réamhaisnéisí;
- spriocanna a leagan síos le feidhmíocht airgeadais agus feidhmíocht eile a thomhas;
- cloí le treoirínte chun soláthar don earnáil phoiblí.
- athbhreithnithe rialta ag an gComhairle ar thionscadail taighde seachtaracha.

Leanann an Coiste Iníúchóireachta ag déanamh athbhreithniú ar chúrsáí rialaithe inmheánaigh agus ar shaincheisteanna a d'ardaigh an tArd-Reachteire Cuntas agus Ciste. I 2014, bhuail an Coiste Iníúchóireachte le cheile trí huaire. Ina theannta sin, an tuarscáil ar chórais rialaithe inmheánaigh don bhliain 2014 a chuir an tIníúchóir Inmheaánach ar fáil tugadh do bhaill na Comhairle í.

Tá monatóireacht agus athbhreithniú na Comhairle ar éifeachtúlacht an chórais rialaithe airgeadais inmheánaigh coinnithe ar an eolas trí obair an iníúchóra inmheánaigh, trí obair an Chláraitheora agus oifigigh eile laistigh den Institiúid atá freagrach as creat oibre rialaithe airgeadais cuí a fhorbairt agus a chothabhlí, agus trí thuairimí a dhéanann an Coiste Iníúchta agus an tArd-Reachteire Cuntas agus Ciste ina litir bhainistíochta no i dtuairisci eile.

## Athbhreithniú Blantúil ar Rialacháin

Dearbhaím go ndearna an Bord athbhreithniú ar éifeachtachas chórais rialaithe airgeadais inmheánaigh na hInstitiúide sa bhliain dár críoch 31ú Nollaig 2014.

Sínithe thar ceann Chomhairle na hInstitiúide

Vincent Cunnane

Cathaoirleach-Comhairle Na hInstitiúide

25 Meitheamh 2015

# Tuarascáil an Ard-Reachtaire Cuntas agus Ciste le cur i láthair Thithe an Oireachtais

## Institiúid Ard-Léinn Bhaile Átha Cliath

Tá ráitis airgeadais Institiúid Ard-Léinn Bhaile Átha Cliath don bhliain dar críoch 31 Nollaig 2013 iniúchta agam faoin Acht Um Institiúid Ard-Léinn, 1940.

Tá na ráitis airgeadais, a ullmhaíodh faoi na beartais chuntasaíochta arna leagan amach sna ráitis, comhdhéanta de na Beartais Chuntasaíochta, an Cuntas Ioncaim agus Caiteachais, an Ráiteas Gnóthachan agus Caillteanas Altheanta lomlán, an Clár Comhardaithe, an Ráiteas ar Shreabhadh Airgid, agus na nótáí gaolmhara. Ullmhaíodh na ráitis airgeadais san fhoirm a leagtar amach faoi Alt 28 den Acht agus de réir Cleachtas Chuntasaíochta a nGlastar Leis go Coitianta in Éirinn.

## Freagrachtaí na Comhairle

Tá an Chomhairle freagrach as na ráitis airgeadais a ullmhú, as léargas fíorcheart ar riocht ghnóthaí na hInstitiúide a chinntí, as a hioncam agus a caiteachas a chinntí, agus as rialtacht na n-idrbheart a chinntí.

## Freagrachtaí an Ard-Reachtaire Cuntas agus Ciste

Is é m'fhreagrachta ná na ráitis airgeadais a iniúchadh agus tuairisc a thabhairt orthu de réir dlí is infheidhme.

Riar mé m'iniúchadh trí thagarit a dhéanamh to na nithe ar leith is gá a chur san áireamh i ndáil le cúrsáí bainisteoireachta agus oibriúcháin a ghabhann le Comhlachtaí Stáit.

Rinne mé m'iniúchadh de réir Caighdeán Idirnáisiúnta maidir le hInniúchóireacht [Ríocht Aontaithe agus Éire] agus de réir Caighdeán Eiticiúil an Bhoird um Chleachtas Inniúchóireachta d'Inniúchóiri.

## Réimse Iniúchta na Ráiteas Airgeadais

Cuimsíonn iniúchadh fianaise a fháil faoi na suimeanna agus na noctuithe sna ráitis airgeadais, ionas go mbeadh leordhóthain fianaise agam a d'fhágfadh cinnteacht réasúnach ann go bhfuil na ráitis airgeadais saor ó mhíráiteas ábhartha, cibé acu calaois nō neamhrialtacht is cús leis sin. Cuimsíonn sé seo measúnú

- an n-oireann na beartais chuntasaíochta don bhail atá ar chúrsaí na hInstitiúide, ar feidhmíodh na beartais sin ar bhealach leanúnach agus ar foilsíodh iad ar bhealach sásúil
- réasúntacht meastacháin suntasacha chuntasaíochta a rinneadh in ullmhúchán na ráiteas airgeadais, agus
- leagan amach foriomlán na ráiteas airgeadais.

ina theannta sin, léigh mé Tuarascáil Bhliantúil na hInstitiúide le haghaidh neamhréireachtaí ábhartha leis na ráitis airgeadais iniúchta. Mar aon leis sin, léim an fhaisnéis airgeadais agus neamhairgeadais sa Tuarascáil Bhliantúil chun neamhréireachtaí ábhartha a aithint leis na ráitis airgeadais iniúchta. Má thagaim ar an eolas faoi mhíráitis ábhartha dealraitheacha nō neamhréireachtaí cuirim na himpleachtaí san áireamh i mo thuarascáil.

## Tuairim ar na Ráitis Airgeadais

Is é mo thuairim go dtugann na ráitis airgeadais, a ullmhaíodh i gceart de réir Cleachtas Chuntasaíochta a nGlastar Leis go Coitants in Éirinn, léargas fíorcheart ar riocht ghnóthaí na hInstitiúide ag 31 Nollaig 2014 agus ar a hioncam agus ar a caiteachas don bhliain 2014.

Is é mo thuairim go raibh leabhair chuntais chuí coinnithe ag an Institiúid. Tá na ráitis airgeadais ag teacht leis na leabhair chuntais.

## Nithe ar a dTuairiscíomh Eisceachtaí

Tuairiscíomh eisceachtaí

- mura bhfuair mé an fhaisnéis agus na mínithe ar fad a theastaigh uaim do m'iniúchadh, nō
- má d'aimsigh m'iniúchadh aon chás ábhartha nár feidhmíodh suimeanna airgid chun na gcríoch a bhí beartaithe nō sa chás nár lean na hidrbhearta do na húdaráis a rialaíonn iad, nō
- mura bhfuil an fhaisnéis a tugadh i dTuarascáil Bhliantúil na hInstitiúide ag teacht leis na ráitis airgeadais gaolmhara,
- mura gcomhlíonann Ráiteas na hInstitiúide maidir le Rialú Inmheánach Airgeadais Cóid Cleachtas maidir le Rialachas Comhlachtaí Stáit, nō
- má fhaighim amach go bhfuil nithe ábhartha eile maidir leis an modh a riadar gnó poiblí.

Níl a thuilleadh le tuairisciú agam maidir leis na nithe seo lena mbaineann tuairisceoiréacht eisceachtaí.

**Colette Drinan**

# Polasaithe Chuntasaíochta

## GINEARÁLTA

Bunaíodh an Institiúid faoin Acht um Institiúid Ard-Leighinn, 1940.

Áirítear ar a cuid feidhmeanna saoráidí a sholáthar le hard-leinn a chur chun cinn tuilleadh agus le taighde a dhéanamh i mbrainsi speisialtachta eolais.

Tá trí Scoil inti - Scoil an Léinn Cheiltigh, Scoil na Fisice Teoiriciúla agus Scoil na Fisice Cosmaí.

## 1. Bunús Cuntasíochta

Tá na ráitis airgeadais ullmhaithe ar bhonn fabhráithe faoin gcoinbhisiún costais stáiriúil agus de réir chleachtas cuntasíochta a nglactar leo tríd is tríd. Glahtar le Caighdeán Thuairiscithe Airgeadais a bhí molta ag na comhlachtaí cuntasíochta aitheanta mar is infheidhme iad.

## 2. Deontais Oireachtas

Taispeántar ioncam ar bhunús airgid isteach.

## 3. Sócmhainní Seasta

Is éard is Sócmhainní Seasta ann ná troscán, trealamh, ríomhairí agus mótarfheithicílí na hInstitiúide agus taispeántar iad ag costas lúide dímheas carntha. Is mar seo a leanas atá na rátaí dímheasa, ríofa ar bhunús dronlínéach:

Troscán agus Trealamh	10%
Ríomhairí	25%
Mótarfheithicílí	25%

Faightear áitribh atá i seilbh na hInstitiúide ar léas ó Oifig na nOibreacha Poiblí.

## 4. Cúlchiste Caipítíl

Léiríonn cúltaca caipítíul luach neamh-amúchta ioncaim a úsáidtear le Sócmhainní Seasta a cheannach.

## 5. Leabharlann

Díscríobhtar caiteachas ar leabhair leabharlainne agus ábhair sa bhliain a dtabhaítear é.

## 6. Foilseacháin

Díscríobhtar caiteachas ar fhoilseacháin sa bhliain a dtabhaítear é.

## 7. Aoisliúntas Pinsin

Feidhmíonn Institiúid Ard-Léinn Bhaile Átha Cliath scéim phinsin shocair shonraithe a mhaoínítear go bliantúil ar bhonn íoc mar a imíonn tú ó chistí atá ar fáil dó, lena n-áirítear cistí a chuireann an Roinn Oideachais agus Scileanna ar fáil agus ó ranníocaíochtaí a asbhaintear ó thuarastail foirne.

Léiríonn costais phinsin na sochair phinsin a thuilleann fostaithe sa tréimhse agus léirítear iad glan ar ranníocaíochtaí pinsin foirne a bhíonn coinnithe ag Institiúid Ard-Léinn Bhaile Átha Cliath. Aithnítear suim a chomhfhreagraíonn don mhuirear pinsin mar ioncam sa mhéid go bhfuil sé inaighabhála, go ndéantar é a fhriúreamh in aghaidh deontais a bhíonn faigte sa bhliain chun íocaíochtaí pinsin a ghlanadh.

Tá gnóthachain nó caillteanais achtúireacha ar dhliteanais na scéime léirithe sa Ráiteas ar Ghnóthachain agus Caillteanais Aitheanta agus aithnítear coigeartú comhfhreagrach sa mhéid is féidir a aisghabháil ón Roinn Oideachais agus Scileanna.

Léiríonn na dliteanais phinsin luach reatha na n-íocaíochtaí pinsin don todhcháí atá tuillte ag an bhfoireann go dtí seo. Léiríonn maoiniú pinsin iarchurtha an tsócmhainn chomhfhreagrach a bheidh aisghafa i dtréimhsí amach anseo ón Roinn Oideachais agus Scileanna.

## 8. Tionscadail

Faigheann Institiúid Ard-Léinn Bhaile Átha Cliath maoiniú seachtarach ó thionscal, ó chomhlachtaí rialtais, agus ó Choimisiún na hEorpa. Coinnítear cairt chuntais i gcás gach tionscadal.

Léirítear ioncam agus caiteachas ar thionscadail sna ráitis airgeadais sa bhliain lena mbaineann siad. Taispeántar barrachas nó easnamh tionscadail sna ráitis airgeadais nuair a léirítear sin.

#### Nótaí

Cuirtear fáiltais tionscadail i bhfeidhm mar ioncam tionscadail, ag leibhéal arb ionann an caiteachas bliantúil ag an tionscadal lena mbaineann siad.

Léiriú is ea na comhorduithe dúnnta thusa ar forchostas a tuilleadh go dáta agus maoiniú roimh ré chun freastal ar thiomantais airgeadais i 2015.

Léiríonn an colún caipítil an caiteachas ar shócmhainní seasta i rith 2014.

### 10. Léasáil

#### Léasanna Oibríochta

Tá na háitribh atá i seilbh na hInstitiúide ar léas ó Oifig na nOibreacha Poiblí.

Is iad na háitribh a n-airítear ná Réadlann Dhún Since, 5 Cearnóg Mhuirfean, 9-10 Bóthar Burlington agus 31 Plás Mhic Liam.

Tá téarma 84 bliana fágtha ar an léas do Réadlann Dhún Since agus athnuaitear na léasanna eile ar bhonn bliantúil.

Is é tiomantas ar bhonn léasanna den sórt sin maidir le 2015 na €113,609.

Léasanna Oifig na nOibreacha Poiblí	Cíos Blantúil
	€
Réadlann Dhún Since	330
5, Cearnóg Mhuirfean	5,022
9-10 Bóthar Burlington	50,167
31, Plás Mhic Liam.	58,090
	<b>113,609</b>

## Nótaí do na Ráitis Airgeadais [ar leanúint]

### 11. Costais Pinsean

#### a) Anailís ar na costais iomlána pinsin curtha chun dochair do Chaiteachas

	2014 [€'000]	2013 [€'000]
Costas seirbhise reatha	953	1,019
Ús ar Dhlikeanas na Scéime Pinsin	1,669	1,593
Ranníocaíochtaí Fostaí	(130)	(141)
	<b>2,492</b>	<b>2,471</b>

#### b) Gluaiseacht i nGlan-Dlikeanas Pinsin i rith na bliana airgeadais

	2014 [€'000]	2013 [€'000]
Glan-Dlikeanas Pinsin amhail an 1 Eanáir	(44,190)	(45,125)
An Costas Seirbhise Reatha	(953)	(1,019)
Costais Úis	(1,669)	(1,593)
[Gnóthachan]/caillteanas achtúireach	(8,342)	2,307
Pinsin íoctha sa bhliain	1,284	1,240
<b>Glan-Dlikeanas Pinsin amhail an 31 Nollaig</b>	<b>(53,870)</b>	<b>(44,190)</b>

#### c) Cistíú larchurtha do Phinsin

Aithníonn DIAS na méideanna seo mar shócmhainn a chomhfheagraíonn don dlikeanas iarchurtha neamh-mhaoinithe do phinsin bunaithe ar na toimhdí thuslaithe agus ar roinnt imeachtaí a tharla cheana. Áirítear ar na himeachtaí seo an bonn reachtúil chun sceim aoiisiúntais a bhunú, agus an polasaí agus an cleachtas i ndáil le pinsin seirbhise poiblí a mhaoiniú, lena n-áirítear ranníocaíochtaí ag fostóirí agus próiseas na meastachán bliantúil. Cé nach bhfuil aon socrú foirmiúil maidir leis na méideanna sonracha seo déanta leis an Roinn Oideachais agus Scileanna, níl aon fhianaise ag DIAS nach leanfaidh an polasaí maoinithe seo de bheith ag freastal ar a leithéid de shuimeanna de réir an chleachtais reatha. Sa Chuntas loncam agus Caitheachais, aithníodh an Glan-Mhaoiniú larchurtha do Phinsin sa bhliain mar seo leanas:

	2014 [€'000]	2013 [€'000]
Maoiniú inaisghabhála i ndáil le costais phinsin na bliana reatha	2,622	2,612
Deontas Stáit feidhmithe chun pinsinéirí a ioc	(1,284)	(1,240)
	<b>1,338</b>	<b>1,372</b>

Ba í €53.870 milliún [2013: €44.190 milliún] an tsócmhainn maoinithe iarchurtha do phinsin amhail an 31 Nollaig 2014.

#### d) Stair na nOibleagáidí faoin scéim shochair shainithe.

	2014 [€'000]	2013 [€'000]	2012 [€'000]
Oibleagáidí shochair shainithe.	53,870	44,190	45,125
[Gnóthachan]/caillteanas iarbhíre ar dhlikeanas na scéime.	309	(487)	2,499
Céadadán de luach dhlikeanas na scéime.	0.60%	(1.10%)	5.50%

Tá [gnóthachan]/caillteanas achtúireach carnach €4,941,000 aitheanta sa Ráiteas d'iomlán na nGnóthachan agus na gCaillteanas Aitheanta.

## Nótaí do na Ráitis Airgeadais [ar leanúint]

### 11. Costais Pinsean [ar leanúint]

#### e) Cur síos ginearálta ar an Scéim

Is é atá sa scéim pinsean ná socrú aoisliúntais shochair shonraithe chríoch-thuarastail le sochair agus ranníocaíochtaí faoi threoir rialachán reatha scéime 'eiseamláire' na hearnála poiblí. Soláthraíonn an scéim pinsean [ochtoidí in aghaidh na bliana seirbhís], aisce nó cnapshuim [trí hochtoidí in aghaidh na bliana seirbhís] agus pinsin do chéilí agus leanaí. De ghnáth, is é an 65ú breithlá an aois scoir agus tá baill a thosaigh roimh 2004 i dteideal éiri as ag aois 60 gan aon laghdú achtúireach. De ghnáth, méadaíonn na pinsin atá á n-íoc [agus pinsin iarchurtha] de réir bhoilsciú ginearálta na hearnála poiblí.

Bunaíodh an luacháil a úsáideadh i gcás nochtadh faisméise faoi FRS17 ar luacháil iomlán achtúireach a rinne achtúire neamhspleách cáilithe a chuir ceanglais FRS san áireamh chun dliteanais na scéime amhail an 31 Nollaig 2014 a mheasúnú. Is mar a leanas a bhí na príomh-thoimhdí achtúireacha a úsáideadh:

	At 31/12/14	At 31/12/13	At 31/12/12
Ráta na nArduithe Tuarastail	2.50%	3.00%	3.00%
Ráta na nArduithe Pinsin atá á n-íoc	2.00%	2.50%	2.50%
Ráta Lascaine	2.25%	3.75%	3.50%
Ráta Boilscithe	1.50%	2.00%	2.00%

Leis an mbonn mortláiochta atá á leanadh, is féidir dul chun cinn in ionchas saoil le himeacht ama a chur san áireamh; mar sin, braithfidh ionchas saoil ag dul ar scor ar an mbliain a shroichfidh ball aois scoir [65 bliana]. Léiríonn an tábla thíos ionchas saoil na mball a shroichfidh aois 65 in 2014 agus in 2034.

	2014	2034
Ionchas saoil – fir	87.3	89.9
Ionchas saoil – mná	88.7	90.9

### 12. Nochtadh Idirbheartaíochtaí

Glacann Comhairle na hInstitiúide le nósanna imeachta de réir threoirínte atá eisithe ag an Roinn Airgeadais maidir le feasanna a nochtáíonn Comhaltaí na Comhairle agus chloígh Comhaltaí na Comhairle leis na nósanna imeachta sin le linn na bliana. Níor léirigh aon Chomhalta de chuid na Comhairle leas.
